Attention House Keepers A GLORIOUS INVENTION .-- A PATENT SELF-HEATING SMOOTHING IRON. SAVING of fuel, as it is heated by a small chamber in the Iron thus prepared, will continue ts temperature for two hours Ironing. H.re we have an extraordinary discovery in one of the most indispensable domestic utensils in the housewives economy. One cent's worth of charcoal fuel is esough for one days Ironing. The second great advantage is that there will be no oceasion for a great coal or wood fire, which in a summer's day, you can do your Ironing in any part of the house, a-way from a blazing fire. Here is a glorious discovery for a tailor, who can have his nitherto hot goose heated easily, and may be made half the weight of the old one. In short, in all cases where a smoothing Iron is necessary, families and others have a cheap article, costing half the expense and trouble of the old flat iron. Ladies call at the store of W. H. & R. RNOLD'S PATENT SASH LOCK, OR WIN-DOW FASTENER. - I invite the attention of he citizens of Raleigh, and of the whole State of North Carolina, to this wonderfully simple, though decidedly the best invention, ever offered them, for keeping their windows either up or down,—and now introduced for the first time into this State. I have just received an assortment of these beautiful little locks, and am prepared to put them on, and will warrant them in every instance to give complete satisfaction. For one quarter of a dol-lar, you can have your upper sash let down, or lower sash kept up, at any elevation you choose, and when down perfectly safe from any intrusion

from without As there is no spring, nor any friction about them, they can never get out of order, or wear out. Samples of the locks may always be seen at Mr. JAMES M. TOWLES' Store, where orders left. will be attended to immediately. As I expect to leave for Fayetteville and Wilmington soon, I would like to attend to your wishes in my line at once.
