Sweet woman's love. After the regular toasts were drunk, there was a goodly number of volunteers offered by the company, each of which called forth a corglorious occasion of their present rejoicing, and breathing the most ardent devotion to a com munity of social and commercial relations between the sections of our sister states, for the accomplishment of which it has prepared the way-relations which nature has foreordained, and which it has been reserved for the genius and enterprise of man to effectuate. We will not give even a faint outline of what was said by the speakers- as our hearing was very indistinct, owing to the extreme enthusiasm. Among the guests from the City was G. P. R. "INTERESTING CEREMONY.

"On Thursday night, in the parlor of the National Hotel, a magnificent cake was presented to the ladies from Raleigh. Mr. Irwin u ade a graceful address on the occasion, which was responded to in a very appropriate manner by S. W. Whiting, Esq., of Raleigh, on behalf of the ladies. We understand that the ladies are this handsome present to the sug-Mr. Cherry, of Norfolk. The cake was placed in the cars, in charge of a committee, and reached Raleigh safely.

"THE RETURN TRIP.

"Our party returned on Friday, in fine health and spirits, enraptured with their excursion .-And here we take occasion to return our hearty obliging president of that fine road, the Sea board and Roanoke, and to L. O'B. Branch, Esq., President of the Raleigh and Gaston Railroad, for their kind attention, both going and coming. The ladies were also much indebted to Mr. Ball, agent of the Seaboard and Roanoke Road, who had charge of their car. Our having occurred to mar the pleasure of the excursion, save a slight accident to the conductor of the train. Being on the top of the cars, he was knocked on the head while passing through which the train was moving, would have been instantly killed.

Thus has passed away this pleasant celebration of the completion of the Weldon and Gaston Railroad. Our intercourse with the people of Portsmouth and Norfolk has been most delightfally inaugurated, and we trust may be long continued."

The distance to Weldon, their country, still to rally under the Whig flag, 79 miles, was made in three hours, including and still to trust in the goodness of their cause, stoppages, being about 21 under steam. After a few minutes delay at Weldon, the iron horse entered upon the new road-a transit which was bailed with three hearty cheers, and all hearts bounded as the welcome fact was realised that an important link had been added to the chain of avenues by which prosperity is to flow into our long neglected port. The new road has been constructed in a most substantial manner. and does great credit to the skill and judgment of its accomplished chief engineer, Mr. Worrell. A few minutes were allowed at Gaston, in order to afford time for a glance at the locality, which has quite a romantic appearance-and then away sped the cars upon the old established Raleigh & Gaston road-recently laid with T. iron, and rendered in every respect as good-as any road we have ever had experience of. At the village of Henderson, which is a thriving thanks to Dr. Collins, the enterprising and little place, all the taverns were thrown open to the excursionists, and excellent and abundant dinners prepared by the direction of Mr. Branch, President of the Raleigh and Gaston Railroad. The proprietors of both hotels, Messrs. T. B. Debnam and A. H. On the arrival of the train at the depot in Raleigh, at half past 5, P. M., the Committee of arrangements were in attendance to receive their guests; and the ceremony of presentation being over, the latter were conducted to Yarbrough's hotel, where as many as could be accommodated were well provided for and the remainder found most agreeable ac-

GENERAL JACKSON'S REMINISCENCES OF THE BATTLE OF NEW ORLEANS .- "Philo Jackson" writes to the Savannah Journal an interesting account of a visit to Gen. Jackson at the Hermitage in 1839, from which the following is ex-

"I longed to hear him speak of his great battle, and one of the greatest battles too of modern history, the crowning exploit of his military life, the battle of the 8th of January, before New Orleans. He had just returned from his last visit to that city, and lamented the decease of most of his old compatriots since that battle. All of the officers except Col. Tiebault, he observed, were dead. He then graphically described the field, the fortifications, as he laughingly called them, and the victory, in a manner shall never forget. "Mr. Eaton (said Gen. Jackson) has greatly erred in his description of the American works. He says I had a "strong breastwork of cotton bags." There was not a cotton bag on the field, Sir! I had some store baxes and sand-bags, or bags filled with sand. and these were extended along the lines; but they were so low, that at the close of the action, when the British surviving General in command came riding up on an elegant horse, to surrender his sword, when he got near me, I heard him exclaim, with mortified surprise, "Barricades! by -- I could leap them with my horse !" I laughed heartily at his astonishment. for so he could, and besides, on one wing the constantly throwing over facines and ladders on the works, the British were effectually deceived. A PRETTY INCIDENT. A journal of the south of France mentions a circumstance connected with the saving of the passengers from a Parisian steamer, the boiler of which exploded on the Rhone. An infant was handed from one passenger to another until it reached a small boat which had come to the aid of persons on board; but, just as the child was received by the men in the boat, a larger boat, by some mismanagement, came violently against it, and the smaller one was overturned. The child was, however, saved by the circumstance of having been placed on a cushion, which floated down the current, and carried the child to a point of the shore where some boatmen took it up. When rescued, it still held an apple in its hand.
