METROPOLITAN. Female Seminary. HE subscriber proposes to open, on the second Monday in January next, in the City of

Raleigh, a High School for young ladies, under the above title-For this purpose, he has purchased the property formerly owned, and employed for school purposes, by the late Rev. J. J. Finch. It is situated on Halifax street, a few hundred yards north of the Capitol, in a pleasant and desirable part of the city; sufficiently near to enjoy all the advantages of the city, and sufficiently retired to be

free from most of its annoyances He has also purchased an unimproved lot, in the same vicinity,—one of the most eligible and beau-tiful sites in the city, upon which he intends, as soon as circumstances will admit, to erect large and commodious buildings, with special reference female school. Its proverbial healthfulness; the objects of interest, which attach to it, as the capital of the State; its accessibility by means of railroads; the high character of the institutions it already contains; and its growing importance, giving promise of permanent prosperity, are all cir-cumstances which cannot be overlooked by parents desiring to give their daughters a polite and an accomplished education. The subscriber will be assisted in the duties of the school by Mrs. McDow-

The course of instruction will be thorough; em-bracing all the branches usually taught in High Schools or (olleges, and diplomas will be granted to those who complete the course. Certificates of graduation will also be given in Music and other Ornamental Branches, to those who attain the requisite proficiency.

The sessions and vacations will be arranged to correspond as nearly as practicable with those of Wake Forest College, in order that parents patron

Board including washing fuel, &c.,60 No deduction for absence, after a pupil has entered, except in cases of protracted sickness. The above terms are as moderate, it is believed, as the expensiveness of living and the facilities, which will be provided, will justify. But experience has taught that Parents, who properly appreciate the education of their children, are more solicitous about the character of the instruction imparted, than about the price paid for it.

Hence the prime object will not be to make the school as cheap as possible, but to render the instruction as *efficient* as posisble.
