#### DENTAL CIRCULAR. GREAT AND IMPORTANT DISCOVERY IN

MECHANICAL DENTISTRY.

ploma from the State Fair of N. C. and Va. THE Subscriber respectfully informs the put lie that he has succeed-ed in making # Mineral Compound, by which Le can make entire Sets of Tceth on LATINA PLATE, with continuous Gum, which are almost equal to natural. Teeth inserted on

this BEAUTIFUL and INDUSTRUCTIBLE method infinitely surpass, in elegance and natural appearance, any others that have been heretofore presen ed to the public.

These tests are comented to the plate, the cement being as strong as the Jeeth. It perfectly iuses to the teeth and plate, forming a solid and atinuous Gum, without crack or crevice. This Gum cannot be acted upon even by the most powerfulacids, and has a perfectly natural and lifelike appearance; nev r becoming offensive or disagreeable to the wearer, as there is no place for ecretions to form. The Substriber having spent many years in the

prosecution of SCIENTIFIC AND MECHANICAL DENTISTRY, Can confidently assure the public that whatever operations may be entrusted to his care, will be performed in such a momen as to give entire sat isfaction to the most fastidious.

DR. BELLINGHAM, an accou plished and competent assistant, has been employed to aid the Subscriber in the mechanical execution of his work, and other operations.

GREENSBOROUGH Mutual Insurance Company.

Mutual insurance on the matual plan is bat a small sum, compared with a joint stock Company. This Company being located in the Western part of the State, consequently much the larger portion of the risks are in the West, very, many of which are in the country. The Company is entirely free from debt; have made no assessments, and have a very large a-mount in each and good bonds, and is therefore confidently recommended to the public. At the last Annual Meeting the following Officers were elected for the ensuing year:
