He thinks he can afford to contract for work of this sort on as reasonable terms as any person in the State,-having made extensive arrangements for so doing. to buy their supply of Winter Garments: The Clothing Trade at the present time is attracting considerable attention in the Mercantile World, and every year more capital is being employed; and when we consider the amount of Clothing manufactured, we cannot but be surprised to know that so few manufacturers pay particular attention to getting up their Stock in good taste,

We believe from our experience in business that too much care and attention cannot be given to the manufacturing of Clothing; consequently we pay the best prices for all kinds of work done; and after having under daily training for years certain hands, it is but reasonable to suppose that we can offer for sale the best made Clothing in the State. We shall have, therefore, on exhibition, during Fair week, at our Store, the most beautiful Stock of Ready-made Clothing in the State Scott & Baldwin, of Wilmington, not excepted !
