FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

none of the objections, but all the advantages, of every other. This has been attempted here, and

with what success we would respectfully submit to

the public decision. It has been unfortunate for

the patient hitherto that almost every purgative

medicine is acrimonious and irritating to the bow-

els. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from

them. These pills produce no irritation or pain,

unless it arise from a previously existing obstruc-tion or derangement in the bowels. Being purely

vegetable, no harm can arise from their use in any

quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are ap-

plicable are given on the box. Among the com-plaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms

of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache,

Bilious Fever, Fever and Ague, Pain in the Side

and Loins; for, in truth, all these are but the con-

sequence of diseased action in the liver. As an

aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body,

Ulcers and impurity of the blood; in short, any

and every case where a purgative is required.

They have also produced some singularly suc-

cessful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely

taken in the spring of the year, to purify the blood

and prepare the system for the change of seasons

An occasional dose stimulates the stomach and

bowels into healthy action, and restores the appe-

tite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, reno-

vate the strength of the body, and restore the

wasted or diseased energies of the whole organism.

Hence an occasional dose is advantageous, even

though no serious derangement exists; but un-necessary dosing should never be carried too far, as every purgative medicine reduces the strength,

when taken to excess. The thousand cases in which

a physic is required cannot be enumerated here, but

body; and it is confidently believed this pill will

answer a better purpose than any thing which has hitherto been available to mankind. When their

virtues are once known, the public will no longer

doubt what remedy to employ when in need of a cathartic medicine. Being sugar-wrapped they are

pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions see wrapper on the Box.
