TO THE PUBLIC .- The subscriber is pleased to inform the public that his CHOLERA AND DIARRHEA MEDICINE affords more prompt relief in the various affections of the Bowels, and consequently more satisfactory to all who have used it, than any other Medicine ever offered to the public. The following are among many testi-

monials of its efficacy . DR. R. H. WORTHINGTON-DEAR SIR: I take much pleasure in adding my testimony to others in favor of your remedy for Bowel Affections, &c., having so frequently experienced its beneficial results in my own case, as well as in many others to whom I have given it. I carried a bottle of it with me to Baltimore, (and here permit me to say I would as soon think of travelling without money as without this remedy) and finding many among my acquaintances there who were suffering with various forms of Bowel Affections, I gave it freely, and in NO INSTANCE did it fail to afford the MOST PROMPT AND DECIDED RELIEF as it has done here.

I congratulate you, and especialty the public, on the discovery of a medicine which is better calculated to protect mankind and alleviate suffering than any other ever brought before the people. L. T. SPIERS. This is to certify that, some weeks back, I was

taken with a violent Diarrhora, which persisted for eight days. Being some sixty miles from home, I made use of all the remedies I could think of, but without affording any relief. On arriving at home, I was informed that Dr. B. H. Worthington had prepared a remedy for Cholera, &c., and was advised to use it. I did so, and to my astonishment, one single dose gave speedy and permanent relief, since which time I have used it frequently in my family ; and, in justice to the Doctor, say consider it much the most valuable medicing I

have used in an experience of twenty years. F. M. CAPEHART. Murfreesboro,' N. C.; Oct. 2, 1854.

DR. WORTHINGTON--DEAR SIE: I take great pleasure in recommending your Cholera Medi to the public and more especially since I have had personal experience and observation of its benefcial effects. I have tried several remedies put up for Cholers, &c., but have never found such happy results from any as from your invaluable remedy. I have

such unbounded confidence in its efficacy, that I am unwilling and will not leave home without a supply with me; and I regard it as one of the most valuable discoveries of the age. Yours, very traly, W. P. BEAMAN.

WINDSOR, N. C., Sept. 19, 1854. DR. R. H. WORTHINGTON-Dear Sir. I have made some effort, and have succeeded in introducing your Medicine to the public, and I find it is taking very well indeed ; and the result is, that I have nearly sold what you sent me. I therefore, wish you would send me some more as soon

as you can. * * * I have not the slightest doubt but that this Medicine is the very best remedy out for the disease for which it is recommend continue the CLOTHING BUSINESS, as ed. I hope you will soon send me a supply, as I would not like to get entirely out of it.

MESSES. EDITORS . In looking over the last number of the Gazette, I found a communication from our friend, Mr. L. P. Spiers, rcommending Dr. R. H. Worthington's Cholera Mixture to the public, for the cure of diarrhosa, dysentery, and other kindred diseases Having experience in my own case, the happy effects of its use, as well as other members of my family, I can safely say that I regard it superior to any remedy we have ever used, in an experience of twenty years. I would, therefore, recommend it to every family as an invaluable remedy, and every individual to procure a bottle and keep it by them in these times of Murfreesboro,' Aug. 30th, 1854. very few are the diseases in which a Purgative Medi-cine is not more or less required, and much sick ness and suffering might be prevented, if a harm-less but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. by the timesy and junctous use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Fill has been perfected with consummate skill to meet that demand. An extension trial of its witness by Physicians Profes. with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Profes-sors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not sub-stantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Among the many eminant gentlemen who have satisfied in favor of these Fills, we may mention DR. A. A. HAYES, Analytical Chemist, of Boston,

Hotel, and others. Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found

in their effects upon trial. These Pills, the result of long investigation and study, are affered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been ob tained by any process. The reason is perfectly ob-vious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each indi-vidual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualeffect is present. All the inert and obnoxious qual-ities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other

more powerful antidote to disease than any other medicine known to the world. As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British Amer-ican Provinces. If however, there should be any ican Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address. Of all the Patent Medicines that are offered, how

few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many em-iment Physicians have declared the same thing of my Pills, and even more confidently, and are will-ing to certify that their anticipations were more than realized by their effects upon trial. They operate by their effects upon trial. They aperate by their powerful influence on the internal viscers to purify the blood and stimulate it into healthy action - remove the obstructions of into healthy action - remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such darange-ments as are the first origin of disease. Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity. For minute directions, see wrapper on the Box. PREPARED BY JAMES C. Dr. R. H. Worthington. It affords us pleasure to say that we have used your Cholera Diarrhœa medicine for the last twelve in forcible contrasts of character which it sets months, and have found it invariably successful, forth in high-wrought language-the style partakin relieving speedily the cases in which we have ing more of the fervor and luxuriance of the tropics had occasion to use it. We entertain a high ap- than of the severe precision of a colder clime. The preciation of its value, and have no hesitation in plot includes several situations of exciting interest, expressing the opinion that it will prove to be a valuable family medicine.
