TRUE PHILOSOPHY AND TRUE SPIRIT .- The "Richmond Whig," commenting upon the result of the Virginia election, remarks:

"We speak from experience when we say that there is no more pleasant and delightful stream in the world than Salt river. > WELL DISPOSED OF .- The "Asheville Spectator" disposes of the contemptible and ridiculous objection of the "News" to Mr. CARMICHAEL, the candidate for Congress in opposition to CLINGMAN, that he once "voted for ice for the members of the Legislature," after the following pungent style. We hope the news will take it

> To the Editor of the Republican Banner: Sin: As several of my acquaintances in various portions of the country have written to ne, expressing a wish to know my views respecting the recent nomination of Governor Johnson by the new school of Democrats assembled at Nashville, a few weeks ago, I do not see that I can answer them more briefly than by asking the publication in your columns of the following note to Mr. Eastman of the Union and American. This gentleman was known as a fireeater during the discussions on the Compromise 1850, and became at once the favorite of the new school of Democrats, after it was ascertained that he had been selected by Mr. Cheves, the print and circulate copies of his speech in the for the last year or two. Yours, respectfully,

NASHVILLE, May 22, 1855. Sin: As I am not a nullifier or abolitionist, a apologist, in any degree, for President Pierce and his cabinet, in their attempt to govern the country by a coalition of the most dangerous factions in the land, you will oblige me by era-

sing my name from your list of subscribers. You maintained the opinion during the discussions on the Compromise of 1850, and after its passage, that that measure was a cowardly surrender of the cause of State Rights, in which respect you agreed exactly with such barmonous statesmen as Messrs. Davis, (the Secretary War.) Mr. Soule, (late Minister to Madrid, Giddings, of Ohio, Sumner, of Massachusetts, and Seward, of New York. It you have changed that opinion, or if any of those have who cooperated with you in the memorable crusade of hat period against the peace of the country. I have seen no evidence of it in the columns of your paper, but, on the contrary, much that is calculated to deceive the people, and, under the guise of the word Democracy, to inaugurate an-

other slavery agitation. In 1832, Tennessec, with but few dissenting oices, in accord with Mr. Madison, the author of the celebrated Virginia Report, declared her concurrence with General Jackson, when denonneing the attempt of South Carolina to nulify the laws of the United States as treason .-And this is now the sentiment of nine-tenths of the people of this State. Yet it is notorious to be tried on other charges. that the individuals the most prominent in adherence to this treason are those specially sought for by President Pierce to fill the most elevated and responsible national trusts, but not a word s ever to be found in your paper warning the country against conduct so obviously the result of the intrigue which has surrendered the power of the Federal Government to the nullilying

actions of the day. We all remember that the most active leader the Tennessee division of the new school of Democrats, after a mysterious flourish of pat iotism on the top of his Mount Pisgah, came down and informed us that his heart would break before he could rejoice at the passage of the Compromise, and more recently, that the present nominee to the office of Governor, by the same school of Democrats, shocked the religious sense of the age in calling Democracy the Jacob's ladder of the sacred scriptures. If the people of Tennessee are prepared to fill their chief offices with those who preach this kind of higher lawism, I do not see how their voice is to become potential in putting down the fanaticism of such men as Giddings and Seward. The people of the North have certainly equal rights with us of the South, and it may be expected that they will exercise them with as much free-

THE DRY WEATHER-High Prices, &c .- A friend of ours received a business letter yesterday from Greensboro,' Alabama, in which he gives the following picture of affairs in that part of the country :

From the long continued dry weather our river is rendered unnavigable. Even on our largest river (Alabama) only the smallest boats can run, and they are charging \$2,50 per barrel freight to Mobile. With us things look alarming. Our river has been so low during the winter and spring that planters have been unable to ship their cotton. It is still in store on the banks of our rivers, and the consequence is a great monetary pressure. But worse than all this is the great scarcity of provisions. Ba con 15 cents per pound, corn meal \$1,50 per bushel, and flour \$20 per barrel, and it is difficult to get those necessaries at these high prices.

THE KNOW NOTHINGS OF MAINE.

BANGOR, May 28, 1855. The announcement last week that Samuel C. Gage had been nominated for Governor by a Know Nothing State Convention was a hoax. No State Convention has yet been held.

The anti-Americans in this city are quite given just now to talk about defeating "Sam's boys" at our next election here, and when asked to explain why they expect such a result, they say "we have not half the working men in the city now that we had last year, as the hard times have forced many of them to go elsewhere to seek a living." Verily this is pretty talk for a party that for years set itself up as the poor man's party, and claimed to be the especial champion of the working man. Two years ago the folly of this claim was proven by attacks upon the working classes which appeared in their organ, and in articles in the Sun from the pens of their high officials, and now we find them rejoicing over the calamity that deprived so many working men of employment and these professed friends of the poor are rejoicing over ought to be a source of heartfelt regret and sorrow to every good citizen, but bigutry and intolerance have now got so strong a hold apon the Pierce Democracy, that nothing deights them more than the distress which fulwed in the track of the financial catastrophe. No doubt they would like to see the whole American family rooted out of the city by an army of foreign paupers and convicts; but in pite of all their intolerance and proscription, says: hey will find quite enough of the American spirit left in Baltimore to give them another verwhelming defeat at the next election.
