GRO MEN, Aleck, Sam, and Johnson. ALECK is a Mason, Carpenter, and Blacksmith, of vellow complexion, inclined to be bald. sharp featured, stout and active, with a good long foot, about 30 years of age. He took off with him a curpet bag, and I presume he took with him a memorandum book, in which I authorized him to keep and collect his accounts for work

done in masonry. SAM is a younger brother of Aleck, also a Mason,-may be known by his heing very likely, straight, with a smiling, good humored expression of countenance-a shade darker than Aleck. These two may be trying to get employment as masons, or at some other mechanical work. JOHNSON was raised by Mrs. Patterson, of Orange county, N. C., to which place, I suppose, he will resort. Johnson is somewhat of a black-

smith and carpenter. He is about the medium size, comper complexion, 30 years of age, teeth not good, eyes red, as though he was fond of drinking, quick of motion and of speech, a little inclined to stoop in the shoulders as he moves. I will give the above reward for the apprehen sion and confinement in jail of each of the above negro men, so that I get them again.

TO THE PUBLIC.—The subscriber is pleased to inform the public that his CHOLERA AND DIARRHŒA MEDICINE affords more prompt relief in the various affections of the Bowels, and consequently more satisfactory to all who have used it, than any other Medicine ever offered to the public. The following are among many testimonials of its efficacy .

DR. R. H. WORTHINGTON-DEAR SIR: I take much pleasure in adding my testimony to others in favor of your remedy for Bowel Affections, &c., having so frequently experienced its beneficial results in my own case, as well as in many others to whom I have given it. I carried a bottle of it with me to Baltimore, (and here permit me to say I would as soon think of travelling without money as without this remedy) and finding many among acquaintances there who were suffering with various forms of Bowel Affections, I gave it freely, and in NO INSTANCE did it fail to afford the MOST PROMPT AND DECIDED RELIEF as it has done here. I congratulate you, and especially the public, on entitled to land. Wagon Masters and Teamsters lated to protect mankind and alleviate suffering L. T. SPIERS.

> This is to certify that, some weeks back, I was taken with a violent Diarrhoea, which persisted for eight days. Being some sixty miles from home, home, I was informed that Dr. R H. Worthington had prepared a remedy for Cholera, &c., and was advised to use it. I did so, and to my astonishment, one single dose gave speedy and permanent relief, since which time I have used it frequently in my family; and, is justice to the Doctor, say consider it MUCH THE MOST VALUABLE MEDICINE I have used in an experience of twenty years. F. M CAPEHART.

> Murfreesboro,' N. C.; Oct 2, 1854. DR. WORTHINGTON-DEAR SIR: I take great pleasure in recommending your Cholera Medicine to the public and more especially since I have had personal experience and observation of its benefi-

cial effects. I have tried several remedies put up for Cholera, &c., but have never found such happy results from any as from your invaluable remedy. I have such unbounded confidence in its efficacy, that I am unwilling and will not leave home without a supply with me; and I regard it as one of the most valuable discoveries of the age. Worthington's Cholera Mixture to the public, for the cure of diarrhoan, dysentery, and other kindred diseases Having experience in my own case, the happy effects of its use, as well as other members of my family, I can safely say that I regard it superior to any remedy we have ever used, in an experience of twenty years. I would, therefore, recommend it to every family as an invaluable remedy, and every individual to procure a bottle and keep it by them in these times of cholera. R R PARKER 'Murfreesboro,' Aug. 30th, 1854.

> This is to certify that I have used Dr. R. H Worthington's Cholora medicine in my family for the last four or five weeks, in several cases of Bowel Complaint, so common in our vicinity, with invariable success. One of the cases was that of negro child, ome four or five months old, who was so emaciated by the effects of the disease, that its life was nearly despaired of, when my wife happened to think that she would try the Cholers Medicine, and did so with complete success in less than forty-eight hours .- I am throughly of opinion that no family should be without so fine a medicine Given under my hand, this 3rd day of October,

PRINCE & CO'S IMPROVED MELODEONS The oldest establishment in the United States .-Employing two-hundred men, and finishing eighty Instruments per week.

DESCRIPTION OF THE MELODEON. - For the bene fit of those residing at a distance, and consequently unable to inspect the Melodeon before purchasing, we will endeavor to give a short description of the Instrument. The cases are made of rosewood, and are as handsomely finished as any piano-forte. The key-board is precisly the same as the piano or organ, and the tone (which is very beautiful) closely resembles that of the flute stop of the organ-the notes speak the instant the keys are touched, and will admit of the performance o as rapid passages as the piano. The pedal on the right supplies the wind, and works so easily that a child can manage it without any exertion. The bellows (which is something entirely new and for which a patent was granted in December, 1849, is a reversed or exhaustion bellows and it is this in a measure which produces the peculiar tone The volume of tone is equal to that of a small organ, and by means of the swell may be increased or diminished at the pleasure of the performer it is sufficiently loud for small churches, and is well calculated for a parlor instrument. Hundreds have examined them, and all have been loud in their praise; and the best evidence of their merit is their rapid sale. But it is a new instrument-a new invention-and is yet but little known in the musical world, and it is for this reason that we call to it the attention of all lovers of music, believing that there are thousands who would lose no time in securing one, were they aware of the existence

of such an instrument, and the low price at which it could be obtained. The following letter from Lowell Mason, Boston, to G. P. Reed, we are permitted to use: Mr. Geo. P. REED, No. 17 Tremont Row, Boston,

DEAR SIR-At your request, I have examined one of the Melodeons manufactured by Messrs. Geo. A. Prince & Co., of Buffalo. I think them in all respects equal and in some respects superior to any others of similar kind which I have seen, and in particular with respect to quality of preciation of its value, and have no hesitation in tone and promptness of touch, or action of the expressing the opinion that it will prove to be a reeds by which quick passages may be performed with certain and distinct articulation of tone. An instrument of this kind is the best substitute for an organ, in church music, with which I am ac-

the Improved Meladeon in 1847, since which time we have finished and sold over Fourteen Thousand. During the past three years, we have finished over Three Thousand Melodeons per year; we have nearly completed our arrangements for finishing Four Thousand annually. The celebrity which our Melodeons have attained has induced nearly every music dealer in the United States and Canada to apply for the agency; but as we make but one Agent in each city or town, many are necessarily disappointed. The result has been that our Name Plate has been put upon Melodeous which were not manufactured by us; and again, (in a few instances wchch have come to our knowledge) dealers, who have been unable to obtain our instruments, have iscepted the agency of some other manufacturer ... keeping one of our instruments which had purposely been put out of tune, and in bad order, as a foil to the inferior article they offered to the public. For P. F. PESCUD, and by Druggists generally. these reasons we caution these who wish to satisfy themselves of the merits of our Melodeons to examine those only which are offered by our Agents or those who deal exclusively in our instruments. borough Coal Mining & Transportation Company will be held in the City of New York, on Tuesday, July 3d, 1855, at 1 o'clock, P. AYER'S PILLS

A NEW and singularly successful remedy for the cure of all Billious diseases — Costiveness, Indi-Cure of all Bilious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sick ness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not sub-stantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Among the many eminent gentlemen who have testified in favor of these Fills, we may mention: DR. A. A. HAYES, Analytical Chemist, of Boston

and State Assayer of Massachusetts, whose high professional character is endorsed by the HON. EDWARD EVERSTT, Senator of the U. S. ROBERT C. WINTHROP, Ex-Speaker of the House ABBOTT LAWRENCE, Minister Plen. to England. † JOHN B. FITTPATRICK, Cath. Bishop of Boston.

Also, Dr. J. R. CHILTON, Practical Chemist, of New York City, endorsed by Hon. W. L. Marcy, Secretary of State. Wm. B. Astor, the richest man in America. S. Leland & Co., Propr's of the Metropolitan Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than

the experience of eminent public men is found in their effects upon trial. These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, ev ery medicine is burdened with more or less of acri monious and injurious qualities, by this each indi-vidual virtue only that is desired for the curative effect is present. All the inert and obnoxious qual ties of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have

proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world. As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a semedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British Amercan Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how

few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries. mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills and even more confidently and are will. my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial. They operate by their powerful influence on the internal viscera to purify the blood and stimulate it

into healthy action - remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity. For minute directions, see wrapper on the Box.
