TTO THE PUBLIC .- The subscriber is pleased to inform the public that his CHOLERA AND DIARRHEA MEDICINE affords more prompt relief in the various affections of the Bowels, and consequently more satisfactory to all who have used it, than any other Medicine ever offered to the public. The following are among many testi-

monials of its efficacy . DR. R. H. WORTHINGTON-DEAR SIR: I take much pleasure in adding my testimony to others in favor of your remedy for Bowel Affections, &c., having so frequently experienced its beneficial results in my own case, as well as in many others to whom I have given it. I carried a bottle of it with me to Baltimore, (and here permit me to say

I would as soon think of travelling without money as without this remedy) and finding many among my acquaintances there who were suffering with various forms of Bowel Affections, I gave it freely, and in NO INSTANCE did it fail to afford the MOST PROMPT AND DECIDED RELIEF as it has done here. I congratulate you, and especially the public, on the discovery of a medicine which is better calcuentitled to land. Wagon Masters and Teamsters lated to protect mankind and alleviate suffering

DR. WORTHINGTON--DEAR SIR: I take great pleasure in recommending your Cholera Medicine to the public and more especially since I have had personal experience and observation of its benefi-

cial effects. I have tried several remedies put up for Cholera, &c., but have never found such happy results from any as from your invaluable remedy. I have such unbounded confidence in its efficacy, that I am unwilling and will not leave home without a supply with me; and I regard it as one of the most valuable discoveries of the age. Yours, very truly,

DESCRIPTION OF THE MELODBON, -For the benefit of those residing at a distance, and consequently unable to inspect the Melodeon before purchasing, we will endeavor to give a short description of the Instrument. The cases are made of rosewood, and are as handsomely finished as any piano-forte. The key-board is precisly the same as the piano or organ, and the tone (which is very beautiful) closely resembles that of the flute stop doubt but that this Medicine is the very best reme- of the organ-the notes speak the instant the keys are touched, and will admit of the performance of as rapid passages as the piano. The pedal on the right supplies the wind, and works so easily that a child can manage it without any exertion. The bellows (which is something entirely new and for which a patent was granted in December, 1849,) is a reversed or exhaustion bellows and it is this in a measure which produces the peculiar tone. The volume of tone is equal to that of a small from our friend, Mr. L. P. Spiers, rcommending organ, and by means of the swell may be increas Dr. R. H. CAUTION-We commenced the manufacture of the Improved Melodeon in 1847, since which time we have finished and sold over Fourteen Thousand. we have ministed and solitover Fourteen Thousand. During the past three years, we have finished over Three Thousand Melodeons per year; we have nearly completed our arrangements for finishing Four Thousand annually. The celebrity which our Mel-odeons have attained has induced nearly every music dealer in the United States and Canada to apply for the agency; but as we make but one Agent in each city or town, many are necessarily disappointed. The result has been that our Name Plate has been put upon Melodeous which were not manufactured by us; and again, (in a few instances wchch have come to our knowledge) dealers, who have been unable to obtain our instruments, have incepted the agency of some other manufacturer --keeping one of our instruments which had purposely been put out of tune, and in bad order, as a foil to the inferior article they offered to the public. For these reasons we caution these who wish to satisfy themselves of the merits of our Melodeons to examine those only which are offered by our Agents or those who deal exclusively in our instruments. Man 7 improvements applied are exclusively our own and being the original manufacturers, our experience has enabled us to produce instruments which a discerning public have pronounced superior to anything of the kind hitherto manufactured. Many of the most eminent musicians of the cities of New York and Boston have voluntarily given testimonisls as to the high character of of our instruments.

A waw and singularly successful remedy for the A cure of all Bilious diseases - Costiveness, Indi-gestion, Jaundice, Dropey, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflamma-tions, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medi-cine is not more or less required, and much sick ness and suffering might be prevented, if a harm-less but effectual Cathartic were more freely used. less but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fittal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Billious derangements. They all tend to become or produce the dasp seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with communate skill to meet that demand. An extensive trial of its virtues by Physicians, Profes-sors, and Patienta, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond ballef, were they not sub-stantiated by persons of such exalted position and character as to forbid the supplied of untruth. Among the many eminent gentlemen who have testified in favor of these Fills, we may mention : DS & A. Haves, Analytical Chemist, of Boston,

the experience of eminent public men is found in their effects upon trial. These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drags themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obmore efficient remedy than had hitherto been ob-tained by any process. The reason is perfectly ob-vious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each indi-vidual virtue only that is desired for the curative ridual virtue only that is desired for the curative effect is present. All the inert and obnoxious qual-ities of each substance employed are left behind, the eurative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

medicine known to the world. As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British Amer-ican Provinces. If however there should be any one who has not received them, they will be premptly forwarded by mail to his address. of all the Patent Medicines that are offered, how

few would be taken if their composition was known! Their life consists in their mystery. I have no

vateries. The composition of my preparations is laid open The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many em-iment Physicians have declared the same thing of my Fills, and even more confidently, and are will-ing to certify that their anticipations were more than realised by their effects upon trial. They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action - remove the obstructions of

internal viscera to purify the blood and stimulate it into healthy action — remove the obstructions of the stomach, howels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derange-ments as are the first origin of disease. Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity. For minute directions, see wrapper on the Box. prepared by
