THE PUBLIC.—The subscriber is please to inform the public that his CHOLERA AND DIARRHEA MEDICINE affords more prompt relief in the various affections of the Bowels, and consequently more satisfactory to all who have used it, than any other Medicine ever offered to the public. The following are among many testimonials of its efficacy.

Dz. R. H. Worrmington—Dran Sir: I take much pleasure in adding my testimony to others in favor of your remedy for Bowel Affectious, &c., having so frequently experienced its beneficial results in my nam case, as well as in many others to whom I have given it. I carried a bottle of it with me to Baltimore, (and here permit me to say I would as soon think of travelling without money as without this remedy) and finding many among my acquaintances there who were suffering with various forms of Bowel Affections, I gave it freely, and in No INSTANCE did it fail to afford the MOST PROMPT AND DECIDED RELIEF as it has done here. I congretulate you and especially the public, on the discovery of a medicine which is better calcu-lated to protect mankind and alleviate suffering than any other even brought before the people.

gally its region of 3 This is to certify that, some weeks back, I was taken with a violent Diarrheen, which persisted for eight days. Being some sixty miles from home, I made use of all the remedies I could think of, but without affording any relief. On arriving at home, I was informed that Dr. R. H. Worthington had prepared a remedy for Cholera, &c., and was advised to use it. I did so, and to my astonishment, one single dose gave speedy and permanent relief, since which time I have used it frequently in my family; and, in justice to the Doctor, say consider it MUCH THE MOST VALUABLE MEDICINE have used in an experience of twenty years.

A NEW and singularly successful remedy for the A cure of all Billious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Information, tions, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medivery few are the diseases in which a Purgative Medicine is not more or less required, and much sick ness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and eften fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feveriah symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the many entiring gentlemen who have testified in favor of these Pills, we may mention:

Dr. A. A. Hayes, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high

WM. B. ASTOR, the richest man in America. S. LELAND & Co., Propr's of the Metropolitan

Hotel, and others.

Did space permit, we could give many hundred eertificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result-of long investigation and study, are offered to the public as the best and most complete which the present state of medical most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each indiery medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative
effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the
curative virtues only being retained. Hence it is
self-evident the effects should prove as they have
proved more purely remedial, and the Pills a surer,
more powerful antidote to disease than any other
medicine known to the world.

ne known to the world. As it is frequently expedient that my medicine should be taken under the counsel of an attending should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! few would be taken if their composition was known! Their life consists in their mystery. I have no

mysteries.

The composition of my preparations is laid open to all men, and all whe are competent to judge on the subject freely acknowledge their convictions of their intrinsic ments. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

FOR THE CURE OF Dysentery, Diarrhea, and Summer Complaints. WILMINGTON, N. C., Feb. 1, 1855. MR. W. H. LIPPITT,—Dear Sir :—Without any suggestion or solicitation whatever on your part, I take pleasure in adding my testimony to the efficacy of your Specific for the cure of Dysentery and kindred complaints. Having been for three years afflicted with a disease of this character, and employed the services of three of the best physicians in this place, with but slight advantage. cians in this place, with but slight advantage, I was induced to try your medicine, and after following the prescriptions and taking several bottles, am now perfectly restored. I believe your Specific to be a most excellent and valuable medicine, and feel no hesitation in recommending it to the pub-lic. So far from being a nostrum, as too many of the popular medicines of the day are, I believe it superior, for the cure of the disease indicated a

bove, to any other medicine. I am truly yours, &c. Prepared and sold, wholesale and retail, by W. H. Lippitt, Druggist and Chemist, Wilmington I. C., Williams & Haywood, Raleigh, and by Druggists generally.
