Extracts from the Opinions of the Press. "The author goes into an examination of the statistics of California to ascertain her actual value to the Country, compared with her cost He gives her full credit for her gold, examines her other resources, agricultural and commercial, and other resources, agricultural and commercial, and comes to the conclusion that, in spite of the treas-ure she has, been pouring so liberally into the world's lap, she has not yet paid for herself. Much space is devoted to the question of her present solvency and her future prospects, and the views advanced are to us novel. A residence of three years in California, in which the author has, at different periods, dwelt in all its regions, from San Francisco up to the mines, has given him a right to speak upon it, and he utters no half way opin-ion. He is positive in his statements, and copion. He is positive in his statements, and cop-ious in his citations of facts bearing upon them. There is a fair share of adventure in is volume. The author sees all the lions of the Euraka State, goes into the drinking and gambling selecons of San Francisco and gives us an account of their in-terior, witnesses a bull and bear fight and descri-bes it very minutely, meets with Chinese, Digger Indians, and all the mixed nations that frequent the new State, works at the mines, both Northern and Southern, and gives in his experience, which, in one case at least, is very amusing, and in short, presents a picture of the entire country as he saw it. We believe the book is destined to at-tract attention. There is a freshness and major tract attention. There is a freshness and noiser about it which removes the class of common works of travel."-Southern Quarterly Review.

"Aside from his own experience, the author ad-vances a number of statistics and general facts in proofs of the trath and in vindication of the severity of his allegations. The book is very ente and will be read with great interest by every body

"The author is a North Carolinian. He has written his book in a very agreable style, and relates many interesting incidents.

Baltimore Chipper " It is well written, and cannot be read but with wonder and amazement. The work must have great run." "Mr Helper supports his inferences and deduc-tions by an array of facts and figures which stand out in bold relief when contrasted with the state-ments sometimes made and believed that Cali-

fornia is hardly less than an earthly paradise. As we design shortly to give an extended notice of

the book, we forbear more comment at the present time, farther than to say that we have also resided

for several years in the "golden State," and know personally that most of the statements made in

the book (dis mal as they are) are briefly true."

"It is a book of merit in point of ability, and of value in its facts and truthfulness." Richmond Examiner.
