"The author goes into un examination of the tatistics of California to ascertain her actual statistics of California to ascertain her actual value to the Country, compared with her cost lie gives her full credit for her gold, examines her other resources, agricultural and commercial, and comes to the conclusion that, in spite of the treasure she has been pouring so liberally into the world's lap, she has not yet paid for herself. Much space is devoted to the question of her present solvency and her future prospects, and the views advanced are to us novel. A residence of three years in California, in which the author has, at lifferent periods, dwelt in allita regions, from San Francisco up to the mines, has given him a right to speak upon it, and he utters no half way opinion. He is positive in his statements, and copious in his citations of facts bearing upon them. There is a fair share of adventure in his volume. The author sees all the lions of the Eureka State, goes into the drinking and gambling saloons of San Francisco and gives us an account of their in-terior, witnesses a bull and bear fight and describes it very minutely, meets with Chinese, Digger Indians, and all the mixed nations that frequent the new State, works at the mines, both Northern and Southern, and gives in his experience, which, in one case at least, is very amusing, and, in short, presents a picture of the entire country as he saw it. We believe the book is destined to attract attention. There is a freshness and naivete about it which removes the class of common works

of travel."-Southern Quarterly Review. "Aside from his own experience, the author advances a number of statistics and general facts in proofs of the truth and in vindication of the severity of his allegations. The book is very entertaining, and will be read with great interest by every body."

"The author is a North Carolinian. He has written his book in a very agreeable style, and reates many interesting incidents. Baltimore Clipper.

" It is well written, and cannot be read but with wonder and amazement. The work must have a Baltimore Patriot. great run." "Mr Helper supports his inferences and deduc-tions by an array of facts and figures which stand out in bold relief when contrasted with the statements sometimes made and believed that California is hardly tess than an earthly paradise. As we design shortly to give an extended notice of the book, we forbear more comment at the present time, farther than to say that we have also resided for several years in the "golden State," and know personally that most of the statements made in the book (dismal as they are) are briefly true."

"It is a book of merit in point of ability, and of value in its facts and truthfulness." Richmond Examiner. For sale by H. D. TURNER.
