This article is absolutely the best pertable inkstand in the known world, for a small quantity folded and placed in the pocket constitutes a travelling inkstand which cannot be broken. It is indeed, the whole art of drawing and painting taught in one lesson. Any leaf, plant or flower, can be transferred to the pages of an album, with a minute and distinct resemblance of nature, with equal facility that pictures and embroidery pat-terns are taken, andhave received the highest eugiums from the fair sex; and, indeed, a more tasteful present for a lady could not be produced. This magic paper will also make linen, or other articles, so as to remain perfectly indelible. All the washing in the world fails to bring it out. Any child can use it with perfect ease. FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative with what success we would respectfully submit to
the public decision. It has been unfortunate for
the patient hitherto that almost every purgative
medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much
griping pain and revulsion in the system as to more
than coanterbalance the good to be derived from
them. These pilks produce no irritation or pain,
unless it arise from a previously existing obstruction or derangement in the bowels. Being purely
vegetable, no harm can arise from their use in any
quantity; but it is better that any medicine should
be taken judiciously. Minute directions for their
use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we
may mention Liver Complaint, in its various forms
of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache,
Bilious Fever, Fever and Ague, Pain in the Side
and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an
aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humers, Scrofula and Scurry, Colds with soreness of the body,
Ulcers and impurity of the blood; in short, any
and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel,
Brysipelas, Palpitation of the Heart, Pains in the
Back, Stomach, and Side. They should be freely
taken in the spring of the year, to purify the blood
and prepare the system for the change of seasons.

An occasional dose atimulates the stomach and
bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their
stimulant action on the circulatory system, renovate the strength of the body, and restore the
wasted or diseased energies of the whole organism.
Hence an occasional dose is advantageous, even
though no serious derangement exists; but un-

wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in no longer doubt what remedy to employ when in need of a cathartic medicine. Being sugar-wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions see wrapper on the Box.

AYER'S CHERRY PECTORAL. For the rapid Cure of COLDS, HOARSENESS. BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

THIS remedy has won for itself such notoriety This remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escane observation, and where its virtues are over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of COLDS, COUGHS, HOARSENESS, &c.; and for COLDS, COUGHS, HOARSENESS, &c.; and for COLDS, COUGHS, HOARSENESS, &c.; and for course is the placement and safest medicine. CHILDREN it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by—

I carried a bottle of it with me to Baltimore, (and here permit me to say I would as soon think of travelling without money is without this remedy) and finding many among my acquaintances there who were suffering with arious forms of Bowel Affections, I gave it freely, and in NO INSTANCE did it fail to afford the MOST ROMPT AND DECIDED RELIEF AS it has done here. congratulate you, and especialty the public, on he discovery of a medicine which is better calcuated to protect mankind and alleviate suffering han any other ever brought before the people.

L. T. SPIERS This is to certify that, some weeks back, I was aken with a violent Diarrhoea, which persisted for ight days. Being some sixty miles from home, I made use of all the remedies I could think of but without affording any relief. On arriving at home, I was informed that Dr. R. H. Worthington ad prepared a remedy for Cholera, &c., and was dvised to use it. I did so, and to my astonishnent, one single dose gave speedy and permanent relief, since which time I have used it frequently n my family; and, in justice to the Doctor, say consider it MUCH THE MOST VALUABLE MEDICINE have used in an experience of twenty years.

[From the Murfreesbore' Gazette.] MESSES, EDITORS In looking over the last number of the Gazette, I found a communication from our friend, Mr. L. P. Spiers, recommending Dr. R. H. Worthington's Cholera Mixture to the public, for the cure of diarrhea, dysentery, and other kindred diseases Having experience in my own case, the happy effects of its use, as well as other members of my family, I can safely say that regard it superior to any remedy we have ever used, in an experience of twenty years. I would, therefore, recommend it to every family as an invaluable remedy, and every individual to procure a bottle and keep it by them in these times of cholera. R. R. PARKER. Murfreesboro,' Aug. 30th, 1854.

This is to certify that I have used Dr. R. H. Worthington's Cholora medicine in my family for the last four or five weeks, in several cases of Bowel Complaint, so common in our vicinity, with invariable success. One of the cases was that of a negro child, some four or five mouths old, who was so emaciated by the effects of the disease, that its life was nearly despaired of, when my wife happened to think that she would try the Cholera Medicine, and did so with complete success in less than forty-eight hours. —I am throughly of opinion that no family should be without so fine a medicine Given under my hand, this ard day of October,
