Messus. Editors ' In looking over the last number of the Gazette, I found a communication from our friend, Mr. L. P. Spiers, renumending Dr. R. II. Worthington's Cholera Mixture to the public, for the cure of diarrhora, dysentery, and other kindred diseases. Having experience in my own case, the happy effects of its use, as well as other members of my family, I can safely say that I grard it superior to any remedy we have ever used, in an experience of twenty years. I would, therefore, recommand it to every family as an intable remedy, and every individual to procure a bottle and keep it by them in these times of cholers.
