**R. R. R.**  
**THREE GREAT LIGHTS!**  
MANKIND have long been engulfed in darkness, as regards the true means of curing health—of ridding the human body from disease, and preserving life. The sick, under the fallacious treatment of the regular faculty, are subject to a continued practice of probability and uncertainty. There is nothing certain as to the greatest of mankind, unless it be the application of the three great lights, the old or new school of medicine.
