BELMONT SELECT SCHOOL, GRANVILLE COUNTY, N. C.,
Two miles South of Clarksville, Va.,
R. H. GRAVES, Principal.
THE PRINCIPAL, AFTER TEACHING TWO years, having determined to establish a permanent School in the country, selected the above location, out of many which he had carefully examined, as being pre-eminently suitable for the purpose designed, reference being had especially to the health and the advantages of social, moral and religious influence.—To attain these ends, though at the expense of improving a new place, the site was procured in the midst of a community noted for intelligence, refinement and moral worth, remote from stores, tipling shops, and other sources of temptation to extravagance and vice.
The School has been two years in successful operation, and the character of the location above given, is freely awarded to it by all acquainted therewith.
Board can be had in families of the highest respectability.
As the number of classes is limited, it is important that applicants state the progress already made.
TERMS: For Board and Tuition, per term of 20 weeks, $85, payable in advance.

HINTS TO PERSONS IN THE COUNTRY.—For Pianos to be durable and last for fifty years, (as they ought to do,) they should be made of timber that has been seasoning for years upon years in succession, otherwise, sooner or later, they are obliged to give way and become worthless. To carry out this important feature, as well as a great many other things connected with the proper manufacture of Pianos, large amounts of money and experience are required, and but few makers have enough of both. With this state of things staring us in the face, is it prudent or safe to purchase from irresponsible traveling agents, who are here to-day and gone to-morrow, simply, perhaps, because the Piano presents a handsome outside appearance and is on the spot, the proper manufacturer of which you know nothing about, when you can, upon altogether as good terms and better, readily supply yourselves from settled, responsible establishments, of twenty years' standing, whose instruments have been tested a thousand times over.
