EDUCATION.

MEDICAL COLLEGE OF VIRGINIA--
SESSION OF 1858-'59.
THIS INSTITUTION, SITUATED IN the Metropolis of Virginia, and endowed by the State, offers to the student every facility for theoretical and practical instruction.
The study of Practical Anatomy may be prosecuted under the most favorable circumstances, as regards climate and supply of material, at a very trifling expense. Clinical instruction is given in the Infirmary connected with the College, and at the Richmond Almshouse. The former of these establishments, which is also the Marine Hospital for the port of Richmond, is under the same roof with the lecture-rooms, and offers peculiar facilities to the student for the daily observation of disease.
An experience of twenty years has demonstrated the advantages of Richmond as a location for a Southern Medical School, and every effort will be made to render this institution worthy of a continuance of public patronage.
The annual Course of Lectures will commence on the first Monday in October, 1858, and continue until the first of March, 1859—[illegible] months.

ST. JOHN'S COLLEGE,
ANNAPOLIS, MARYLAND.
THE NEXT ACADEMIC YEAR OF ST JOHN'S College, Annapolis, Maryland, will begin on Wednesday, the sixth of October, 1858. The location of this Institution is in all respects admirably adapted to academic purposes. Remote from the stir and bustle of a large city it invites to Study and Literary repose, and yet its proximity (40 miles by railroad twice a day) to Washington and Baltimore cities, makes it perfectly accessible from the great national thoroughfares. A large and beautiful building just completed, with accommodations for one hundred and fifty students, affords greatly increased facilities for the education of youth. A Dormitory, very commodious and well ventilated, with large study rooms attached, will, under the constant supervision of the Proctors, afford to young boys that daily and nightly supervision which is found indispensible in the education of youth. The very central position of Annapolis, whether considered in reference to the State or the country generally, and its perfect healthfulness and exemption from the extremes of heat and cold, point it out as one of the most desirable spots for a seat of learning. Every possible facility for exercise is afforded by large and beautiful grounds. A water right of some three quarters of a mile affords means of swimming, bathing and skating, all within College bounds.
The College Campus affords the finest field for the regular infantry drill and occasional parade. Nor are the advantages in a scholastic point of view at all less striking. With all its Chairs filled by men in the prime of life, and freshness of vigor, the institution is prepared to take its place by the side of the most prominent schools in the land as an educator of youth. Its facilities for discipline are much more than usually abundant. To the South, especially, is an institution situated just as this is, most inviting. All that is required to the completion of an Under Graduate Course, clothing alone excepted, may be had at the rate of Two hundred and fifty dollars per annum. Gentlemen having a son or ward at the Naval School and members of Congress from a distance would find it most convenient to inquire particularly into the character of this institution. A punctual attendance, on or by the first day of the academic year, (which begins on the first Wednesday in October and ends the first Wednesday in August following,) is most earnestly requested, and will be most convenient to the student, as choice of rooms depends on the time of his arrival.
