THE UNDERSIGNED, IMPORTERS AND present exciting state of the country, deem it proper to bring to the notice of the interior Merchants the claims we have to their patronage and custom. The majority of us have been long established in business, and from our experience are well acquainted with the vants of the country. All of us hold sentiments in ommon on the agitating question of the day-slavery; and all of us desire, as far as practicable, to become commercially independent of the North. We have no desire to underrate the energy and enterprise of the Merchants of Northern cities, but we claim to be able to supply goods in our respective lines, on as favorable terms, both as to price and credit, as the merhants of any city to the Union. We have facilities

for obtaining goods from Europe not surpassed by any, and our importations from abroad are very large, notwithstanding the reports to the contrary, circulated by those who have no knowledge of what they affirm, or whose interest prompt them to mislead. American goods we obtain from the manufact on as favorable terms as any Jobbing Merchants of the Northern cities. Why then should we not be able to

We are able and determined to do so, and all we sak of you is to try this market, lay aside prejudice—for it is only a prejudice—that your customers prefer goods from New York to those from Charleston, and build up and encourage your own seaports and your own Merchants. If we cannot do what we profess you will be subjected to very little inconvenience, for opportunities of leaving by railway or steamer are offered every twelve hours.

Our stocks will be complete by 1st February next, and it remains to be seen how many of those who have heretofore purchased all their goods in northern cities will give Charleston a trial this spring. Charleston, S. C., December 12, 1859.

PROSPECTUS OF The Church Intelligencer !

The Church Intelligencer!

WHE UNDERSIGNED PROPOSES TO PUBLISH in the City of Raleigh, in North Carolina, a weekly newspaper designed to advance the interests of the Episcopal Church at the South, and to diffuse latelligence concerning its labors and its progress. In this enterprise, he has reason to hope for the approbation, and to some extent the aid of the Bishops of Tennessee, Louisiana, Georgia, Mississippi, Alabams, Florida, South Carolina, Forth Carolina, Texas, and the Missionary District of the Southwest. In each of these diocesses appears to have a resident contributor to the columns of his journal, who shall give information to its readers of any event of interest occurring in the diocese to which the writer belongs.

The benefits of such a paper, if well conducted, will be acknowledged to be great, when it is recollected that in all these dioceses just enumerated, constituting in themselves a michty and rapidly growing empireshere is not a single newspaper expressing the sentiments and recording the contemporaneous history of the Episcopal Church—that what is known by its clergy and people living in this extensive and prosperous region on these subjects is gathered mainly from newspapers published at remote points at the North in which the interests of these dioceses and the especial duties of the church men the principles, the past history and present condition of the church are often misrepresented in that region of country and still more frequently misunderstood, and there is no organ and acopportunity by which, publicly and effectually to refute such misrepresentations and correct

try and still more frequently misunderstood, and there is no organ and no opportunity by which, publicly and effectually to refute such mispresentations and correct such mistakes.

By means too of a newspaper in these dioceses, conducted in a religious spirit and on judicious principles, the members of the church might be assisted not only in the general improvement of their spiritual state, but especially in the performance of the peculiar duties imposed upon them by the constitution of society in the southern country—duties which his very near the hearts of many of them.

It is furthermore intended to curish the columns of the paper with as many as possible of those treasures

gious literature of our mother church is now so abundantly pouring forth—and to give occasional views of the state of religion and learning on the continent of Europe. But there is one subject closely connected with the highest welfare of the South to which it is designed that this paper shall give solicitous attention. It is the realization of the magnificent idea of the University of the South at Sewannee, and in order there to the dissemination of intelligence converges.
