MISCELLANEOUS. PROSPECTUS OF

The Church Intelligencer!

THE UNDERSIGNED PROPOSES TO PUBLISH in the City of Raleigu, in worth Carolina, a weekly newspaper designed to silvance the interests of the Episcopal Church at the South, and to diffuse iatelligence or nearning its labors and its progress. In this enterprise, he has reason to hope for the approbation, and to some extent the sid of the Bishops of Tennessee, Louisiana, Georgia, Mississippi, Alabama, Florida, South Carolina, North Carolina, Texas, and the Missionary District of the Southwest. In each of these dioceses he expects to have a resident contributor to the columns of his journal, who shall give information to its readers of any event of interest occurring in the diocese to which the writer belongs.

The benefits of such a paper, if well conducted, will be acknowledged to be great, when it is recollected that in all these dioce as just enumerated, constituting in themselves a mighty and rapidly growing empirathers is not a single newspaper expressing the sentiments and recording the contemporaneous history of gy and purple frong in that what is a cond prosperous region on these subjects is gathered mainly from newspapers published at remote points at the No. 1: in papers published at remote points at the No. 1: The Church Intelligencer!

region on these subjects is gathered mainly from newspapers published at remote points at the Nc. t: in
which the interests of these dioceses and the especial
duties of the churchmen therein are comparatively obscure and neglected subjects. In the meantime the
principles, the past history and present condition of the
church are often misrepresented in that region of country and still more frequently misunderstood, and there
is no organ and no opportunity by which, publicly and
effectually to refute such mispresentations and correct
such mistakes.

such mistakes.

By means too of a newspaper in these discoses, conducted in a religious spirit and on judiciou principles, the members of the church might be assisted not only n the general improvement of their spiritual state, but especially in the performance of the peculiar da-ties imposed upon them by the constitution of society in the southern country—duties which lie very near the hear's of many of them.

It is furthermore intended to enrich the columns o the paper with as many as possible of those treasures of thought and learning which the Periodical religious literature of our mother-church is new so abundantly pouring forth—and to give occasional views of the state of religion and learning on the continent of Europe. But there is one subject closely connected with the highest welfare of the South to which it is designed that this paper shall give solicitous attention. It is the realization of the magnificent idea of the University of the South at Sewannee, and in order there to the dissemination of intelligence concerning it, and the issue of appeals in its behalf. Designed then as the contemplated paper is to effect objects so important and so beneficent, the undersigned confidently hopes to receive the active aid of his b ethren of the clergy and laity in the southers country. It is intended to give the paper the name of the Church In-telligencer, and to issue the first number, if possible, early in March, 1850. Its terms will be two dollars and a half per annum payable in sdvance. Advertisements will be inserted

at the usual rates, and a liberal discount made for standing advertisements. The paper will be sent free to will forward the names and the subscritpti HENRY F. GREEN, Presbyter of the Diocese of N. C.

We approve of the publication and circulation of a newspaper for the nurposes and on the principles set forth in the Prospectus of the Church Intelligencer, and we cordially recommend it to the clorgy and laity of our dioceses, designing ourselves to make use of its columns for the communication of intelligence to them.

Prof. Wood—Dear Sir: Your Hair Restorative has
t one much good in this part of the country. My hair
I as been slightly diminishing for several years, caused suppose from a slight burn when I was quite an innt. I have been using your Hair Restorative for eigceks and I find that I have a fine beach of hair now
cowing, after having used all other remedies known,
no effect. I think it the most valuable remedy now

ctant, and advise all who are afflicted that way to You can publish this if you think proper.

Yours. &c., S. W. MIDDLETON. PRILADEL MIA, Sept. 9, 185°.

Prof. Wood—Dear Sir: Your Hair Restorative is poving itself beneficial to me. The front and also be back part of my head almost lost its covering—was in fact BALD. I have used but two half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can fedure many others to try it.

Yours, respectfullly, D. B. THOMAS, M. D. The Restorative is put up in bottles of three sizes, wis: large, medium and small; the small holds one-nal a pint, ar d retails for one dollar per bottle; the median holds at least twenty per cent, more in proportion than the small, retails for two dollars a bottle; the large holds a quart, 40 per cent more in proportion and retails for three dollars a bottle.
