In the number of its MINERAL SPRINGS, the variety of their temperatures and their extraordinary remedial powers in many of the most surious, painful and dangerous CHRONIC DISEASES that affect the human race, this vatering place offers to INVALIDS suffering from the maladies in which THEMAL WATERS are indicated means for the receptor of health which

Many persons afflicted with the diseases enumerat ed above, in forms which had resisted the most skillful medical treatment, and had rendered the lives of the sufferers alike wretched and useless through long years of pain, have been restored to perfect health by their use. And in many of these cases not only medical science, but other Mineral Springs of the highest reputation had failed to afford relief.

Of the vast number now suffering with such maladies, there are few, indeed, who would not be either oured or greatly relieved by these waters. When drank, they are anti-acid, mildly aperient, and freely diuretic and diaphoretic. Used as a general bath, they equalize an unbalanced circulation ; and restore to the different important organs of the system, when torpid, that nat-ural and healthy sensibility without which they cannot perform their respective functions, and the beneficial ac-tion of all remedies will be diminished or destroyed. They act powerfully upon the Liver, Kidneys and Skin : relax contracted tendons and rigid muscles ; rouse up suppressed secretions; excite the action of the absorbent vessels; exert a salutary influence over the uterine system, and often relieve, in a short time excruciating pain, caused by serious and long-standing disease.

Diseases of the South. In no class of human maladies have these waters been more eminently successful than in those which prevail in the SOUTHERN and SOUTH-WESTERN

which so frequently follows the bilious fevers of the outh, their great value is unquestionable In many cases, where the Secretion of Healthy Bile had been almost totally suppressed for years, a course of these waters has fully restored it. And in many other cases, where the Liver was not only torpid and engorged, but ENLARGED, its normal condition has been brought back, the engorgement and enlargement have disappeared, and the subsers have been restored In Chronic Diarrica, depending, as that dis-case generally does, upon a deranged and integrate ac-tion of the Liver and Skin, the powerful influence which these waters exert upon a both these important organs makes them a remedial agent of unequalled power.

Enlargement of the Prostate Gland. Cases of this disease have been thoroughly cured at the Hot Springs—the powerful excitant action of the waters upon the absorbent vessels enabling them sometimes to cure enlargements of this gland, as well as
