ET THERE BE LIGHT! Let there be good light!

Let there be cheap Light! PESCUD introduced some time ago a new Lamp with a new Oil to burn in it. Shortly after their introduction the Oil was thrown into market so bad that it was useless to try to burn it. Since that time there has been a steady improvement; and now PESCUD has the pleasure of offering the purest, best burning and cheapest Kerosene ever sold here. It is warranted to burn one third lenger than the best Oil sold by parties heretofore pronouncing the whole thing a hum-bug. It burns free of smoke or smell. It only costs a little over one-fourth cent an hour. It is a better light for the eyes, and better for all purposes than any other light. It is sold at \$1 25 per gallon, or 35 cents PESCUD'S. LENT chance for reliable business men to secure a profitable manufacturing business, requiring but a small capital in its establishment and prosecu-

The manufacture consists in the application of a peculiar composition or enamel to common red bricks, and a variety of other building material, ornamenta architectural finishings, ceilings, tiles for floors and

This enamel may be tinted of any color, from the purest white to the deepest black, with all the colors and shades between. It imparts to the articles to which it is applied a hardness and durability almost incredible, and a beauty surpassing that of the rarest and most costly of the variegated merbles, and unlike them, is impervious to moisture, and will never fade stain, or deteriorate, costing but a fractional part o the price of ordinary marble. It is also valuable for table and stand tops, mantle-

pieces, monuments, and an endless variety of other articles of staple use. The process of applying the enamel is simple, while the articles enameled will command a ready sale, affording large profits. Responsible parties may procure licenses for manufacturing under the patent for any city or prominent town in the United States by applying to the subscriber. A small tariff on the articles manufactured will be required for the use of the invention. Circulars giving full particulars will be forwarded to all applicants. The superior merit and beauty of this enameled building material to anything in use has the unquali-

fied indorsement of the most eminent architects and

scientific men of this and other cities. For particulars address JOHNSON & PRALL, General Agents for Enameled Building Material, 25 Nassau St., New York. WANTED! WANTED!!
