Shortly after their introduction the Oil was thrown into market so bad that it was useless to try to burn it. Since that time there has been a steady improvement; and now PESCUD has the pleasure of offering the purest, best burning and cheapest Kerosene ever sold here. It is warranted to burn one third lenger than the best Oil sold by parties heretofore pronouncing the whole thing a humbug. It burns free of smoke or smell. It only costs a little over one-fourth cent an hour. It is a better light for the eyes, and better for all purposes than any other light. It is sold at \$1 25 per gallon, or 35 cents a cuart.

peculiar composition or enamel to common red bricks, and a variety of other building material, ornamental architectural finishings, ceilings, tiles for floors and This enamel may be tinted of any color, from the

purest white to the deepest black, with all the colors and shades between. It imparts to the articles to which it is applied a hardness and durability almost incredible, and a beauty surpassing that of the rerest and most costly of the variegated marbles, and unlike them, is impervious to moisture, and will never fade, stain, or deteriorate, costing but a fractional part of the price of ordinary marble. It is also valuable for table and stand tops, me pieces, monuments, and an endless variety of other

articles of staple use. The process of applying the enamel is simple, while the articles enameled will command a ready sale, affording large profits. Responsible parties may procure licenses for manufacturing under the patent for any city or prominent town in the United States by applying to the sub criber. A small tariff on the articles manufactured will be required for the use of the invention. Circulars giving full particuars will be forwarded to all applicants. The superior merit and beauty of this enameled building material to anything in use has the unquali fied indorsement of the most eminent architects and scientific men of this and other cities.
