WHAT IS TO BE DONE WITH THE SOUTH WHEN IT IS CONQUERED. The New York Herald has the following:

This a very important question. What is not to be done with them was decided by the flat rebuke received by Senstor Sumner, whose resolutions, on Tuesday, were laid on the table by a vots of 21 to 15. These resolutions are only which has marked the career of the fanatical faction to which Senator Sumner belongs. The man who proposed to send ambassadors to the black republics of Hayti and Liberia, now proposes to put the black race over the white race at the South, wherever the blacks are more numer-

ous than the whites. By some unnatural idiosyncracy, all Senator Sumner's sympathies are lavished upon negroes, in antagonism to the interests of the race to which he is supposed to belong. Such is his passion for the negro that he would lay the train for St. Domingo massacres from Susquehanna to the Rio Grande, and he would blight the Christian civilization of the Caucasian race in order to substitute the canniba'ism and fetishism of the King of Dahomey. Having played his part in breaking up the American republic of white men, this fanatic is now engaged in the work of preventing its re-

Mr. Sumner maintains that the Southern States cease to belong to the Union, and therefore we of the North may treat them as we please—they are beyond the pale of the constitution. Territorial Governments must be established, and we will rule them with a rod of iron. Now, if the Southern States are not legally within the Union. what are we waging war with them for? Has not the war been set on foot to "execute the laws of the Union?" Why did we not establish a terriorial Government for Mexico when we conquered her? And why have we not an exed all the neighboring nations around us and made them Territories? The colonial system of the old country is unknown to American laws.

We do not believe in the folly of enslaving the white men of our own race for the purpose of emancipating negroes. The moment we attempt anything of this kind we absolve the Southern population from all allegiance to the United States, and we have no longer any cause of war against them, This is either a war for the maintenance of the Constitution or it is not. If it be a war for the Constitution, then it must be carried on according to the principles of the Constitution. If it be not a war for the Constitution. what is it for? Surely not for a mere abolition theory, a fanatical abstraction, is this great nation to pour out its blood and treasure like water. If the old Union is not to be restored by the war, then we have no more to do with the Southern States than we have to do with Mexico, Central America, or Canada. But if the object of the war be to restore the Union, it may be necessary during the struggle to place under provisional government those Southern States which are subjected to our arms. That has been done to some

NEW BREEECH-LOADING GUN.

Mr. C. W. Alexander, of Hardy county, has KER'S a great variety of WOOD AND WILLOW invented a breech-loading rifle which is a decided improvement upon Sharpe's, and is remarks bly simple and easily made, while it is so efficient as any other gun. A gun has been made under the surperintendence of Captain Burton, of the C. S. Armory, according to the patent of Mr. Alexander, which has received the approval of Maj. Gurgan, as well as that of Capt. B. and other maj. Gorgan, as well as that of Capt. B. and other competent judges. Maj. Gorgan commends it especially for mounted riflemen. It can be loaded with the greatest case, and cuts the cartridge itself in the act of loading. It closs no more than other gups, and thus has an advantage over Sharpe's. Persons are ready to undertake the macufacture of this gun upon a considerable scale, if their enterprise finds favor with the Government.—Richmond Examiner.

A portion of the grounds selected for the grand industrial exhibition of 1867 at Louidon, has been set apart for the Confederate States. What we will have to exhibit that will complete with European manufacture is not said, but it is a significant fact that this appropriation to the South has heretofore been granted only to recognised antions.—Richmond Disputch.

YANKERS ELATED. Bistoneing as was the TANKERS ELECTED.—Districting as was the rumore from Tennessee which prevailed in this city on Tuesday, we could almost find it in our hearts to wish it had not been so soon corrected. The Yankess in our midst were on the eve of proclaiming themselves, and in one day more we might have had the satisfaction of seeing and knowing by their own acknowledgement our internal enemies. Putting the Roanoke disaster with our rumored Tennessee discomfiture, they thought the cause of the South desperate, and so great was their joy, that it could scarcely be contained.

We learn that a man went throughout this city Tuesday morning, trying to sell sixty thou-sand dollars worth of dry goods, still in Philadel-phia, to be delivered in Richmond in ten days.— Another is said to have gone up to a gentleman in the Second Market, Tuesday morning, and slapping him on the back said, "Ab, ah! what do you think now? I thought you said we could not subjugate you?"

We have no doubt many similar instances occurred which have not reached our cars .- Richmond Examiner.

CANCER. Col. Usory, of the parish of DeSoto, Louisiana, informs the editor of the Oaddo Gasette that he tested a remedy for this troblesome disease, recommended to him by a Spanish weman, a native of the country. The remedy is this: Take an egg and break it, then pour out the white, retaining the yelk in the shell; put in salt, and mix the yolk as long as it will receive it; stir them together until the salve is formed; put a portion of this on sticking plaster, and supply to the cancer twice a day. He has made the experiment twice in his own family, with complete success.
