15 tf February 21 The expressions rich blood, and poor blood, have a scientific basis. The ridicule which many have attempted to cast on these common sense opinions, must recoil upon themselves as surely as

that Truth will prevail. BRANDRETH'S PILLS: The effect of this celebrated medicine is to purify

the blood, to convert the poor, corrupt blood, into a year, or to the Four Reviews at \$8, will receive healthy, rich blood. And it is because they do this that they are so steadily sought after by all classes A subscriber to Blackwood and three Reviews, at of our citizens who have required medicine. And it \$9 a year, or to the Four Reviews and Blackwood, at is because of the power Brandreth Pills are now known to possess as health-restorers, that renders

They cure all affections, simply, because they make the blood pure-abstract out of it those qualities which produce disease, and give to it those qualities which produce health.

Now every solid part of the human frame is made from the blood, and the food we eat is converted into blood to supply the waste our bodies are continually sustaining. So in the ordinary course of nature we manufacture our entire bodies in about nine years from the food taken into our stomsche. Suppose the blood made in this stomach of ours is unsound, impure, occasioned by some cause or other : it may refer to the preceding generation; no matter, we make impure blood; and if so cannot be healthy. Or sup pose the air we have lived in for some time has been paded with matters detrimental to health, or our food for a long period has been of an unwholesome kind. or that the mind has been much troubled-for grief, anxiety, or great attention to any particular point is sure to occasion bad effects on the blood. Any of these causes existing good blood cannot be supplied

to the body.

But let Braudreth's Pills be used daily under these circumstances in doses of from two to six pills, or as the cases shall determine. What is their effect? It is to carry off the impure matters from the blood, leaving only the good to renew every part of the body What was unsound now becomes sound, and the stumech soon gets into so healthy condition that even had air or unwholesome food for a time are unable to injure the health materially. Even when the cfimate or food continue unhealthy, the occasional use of the Brandreth Pills will separate the impure parts and cause their expulsion, leaving what is good to

supply life and strength to the body. When the bones are diseased, when every ramification of the frame is out of order, the Brandreth Pills will in nineteen cases out of twenty curs. produce; which effect can be graduated just as the ceived by H. D. Turner, at the patient pleases. No possible injury can result from this; nothing but good can follow. Enquire the effect of Brandreth's Pills among your unprejudiced friends; you will hear sufficient to satisfy you that there is no RISK in making the trial, and that you will not be

doing yourself justice without it. When your bold is once PURE nothing in the shape of food will hardly come amiss; nothing will sour upon your stomach ; you may ent pies, or anything in reason; and the greater variety of food the better blood is made. All who have weak stomachs, who are dispeptic, or in any way afflicted in body, should without delay resert to Brandreth's Pillswhich will indeed strengthen the life principle, and by perseverance with them, entirely renew the whole body ; the materials now in it good, will be kept so ; those bad misplaced and removed. Good blood cannot make bed bone or, bad flesh. And bear in mind. the Brandreth's Pills surely purify the Blood.

The method of preparing the Brandrethian Vegetable Extracts is secured by Letters Patent of the United States-Patent granted to Benjamin Brandreth, 20th January, 1843. The extracts of which Brandreth's Pills are com-

posed are obtained by this new patent process, with-

out boiling or any application of heat. The active principle of the herbs is thus secured, the same as it is in the living vegetable.

The public should be cautious of medicines recommended in advertisements stolen from me.
