The above Periodicals are reprinted in New York mmediately on their arrival by the British Steamers. in a beautiful clear type, on fine white paper; and are faithful copies of the originals, Blackwood's Magazine being an exact fae simile of the Edinburgh Edition.

They embrace the views of three great parties in England-Tory, Whig and Radical-" Blackwood" and the "London Quarterly" are Tory; the "Edinburgh Review" Whig; and the "Westminster Review" Radical. The " North British Review" is more of a Religious character, having been originally edited by Dr. Chalmers, and now, since his death being conducted by his son-in-law, Dr. Hanne, associated with Sir David Brewster. Its Literary character is of the very highest order.

BRANDRETH'S PILLS: A subscriber to Blackwood and three Reviews, at of our citizens who have required medicine. And it

known to possess as health-restorers, that renders which produce disease, and give to it those qualities

which produce health. Now every solid part of the human frame is made from the blood, and the food we eat is converted into blood to supply the waste our bodies are continually sustaining. So in the ordinary course of nature we manufacture our entire bodies in about nine years from the food taken into our stomachs. Suppose the blood made in this stomach of ours is unsound, impure, occasioned by some cause or other: it may refer to the preceding generation; no matter, we make impure blood, and if so cannot be healthy. Or sun pose the air we have lived in for some time has been loaded with matters detrimental to health, or our food for a long period has been of an unwholesome kind or that the mind has been much troubled—for grief anxiety, or great attention to any particular point i sure to occasion bad effects on the blood. Any of these causes existing good blood cannot be supplied

to the body. But let Brandreth's Pills be used daily under these circumstances in doses of from two to six pills, or as the cases shall determine. What is their effect? It is to carry off the impure matters from the blood, leaving only the good to renew every part of the body-What was unsound now becomes sound, and the stomech soon gets into so healthy condition that even had air or unwholesome food for a time are unable to injure the health materially. Even when the climate or food continue unhealthy, the occasional use of the Brandreth Pills will separate the impute parts and cause their expulsion, leaving what is good to

supply life and strength to the body. When the bones are diseased, when every ramification of the frame is out of order, the Brandreth Pills will in nineteen cases out of twenty cunz. Remember that the body can be entirely remaile from the food, bones and all ; and aided by this most beneficent medicine, in quarter of the time it takes in the an entirely new healthy body can be exchanged for the unsound, the diseased, the miserable one. The slowness or quickness of the change altogether depen ing upon the effect the Brandreth Pills are made to produce : which effect can be graduated just as the ceived by H. D. Turner, at the patient pleases. No possible injury can result from this; nothing but good can follow. Enquire the effect of Brandreth's Pills among your unprejudiced friends: you will hear sufficient to satisfy you that there is no RISK in making the trial, and that you will not be

doing yourself justice without it. When your bood is once runs nothing in the shape of food will hardly come amiss; nothing will our upon your stomach ; you may eat pies, or anything in reason; and the greater variety of food the better blood is made. All who have weak stomachs. who are dispentic, or in any way afflicted in body. body ; the materials now in it good, will be kept so ; those but misplaced and removed. Good blood cannot make bud bone or, bad flesh. And bear in mind. the Brandreth's Pills surely purify the Blood.

The method of preparing the Brandrethian Vegetable Extracts is secured by Letters Patent of the THE American Almanac, and Repository of use- United States Patent granted to Benjamin Brandreth, 20th January, 1843.

The extracts of which Brandreth's Pills are composed are obtained by this new patent process, with-out beiling or any application of heat. The active nciple of the herbs is thus secured, the same as it
