### SCIENTIFIC MEDICINE.

Great experience and judgment are required to make a valuable, and at the same time, innocent purgative. This is possessed only by few.  
The great majority of the remedies advertised of this class are manufactured by persons who have no idea of the relative or individual powers of the drug they use. It is this cause, more than any other, which occasions the inertness and often injurious effects, produced by advertised remedies. And hence the general prejudice which prevails against them. Now there is a great difference in this respect with regard to the Pills made by Dr. B. B. WALKER, and consequently, their superior claims upon the public. Each of the articles composing the **Brandt's Pills**, are prepared in that way which will secure their beneficial effects to the system in the safest and easiest manner. For instance, some ingredients have to be given in the form of pills, in the air is exhausted in the stomach, and remains as usual a combination is effected with other ingredients, which afterwards prevents the air from acting injuriously upon the medicine. Again, the proportion for each ingredient depends upon its multiplying power upon other ingredients. For the benefit of different vegetable purgatives upon each other, is governed by similar laws that govern the power of figures by multiplication. Nine added to nine, make eighteen; but nine times nine are eighty-one. So it is with some vegetable purgatives. By adding nine parts of one ingredient, and nine parts of another ingredient together, the power is increased, not to eighteen, but to eighty-one. For example, either of the articles to produce any purgative effect would have to be used to the extent of eighty-one grains; by combining them, only eighteen grains have to be used. Again, another ingredient is found to multiply the power again, which in a proportion of two grains, would have no effect upon the animal economy, but, when added to eighteen grains of a compound of two parts of nine grains, each of two ingredients, will again multiply the power high they have gained, of eighty-one by one hundred and eighty-one. So again, the mixture of twenty grains can be again multiplied by the addition of two grains, to the power of three hundred and twenty grains, of the original power of the two first ingredients. Here we have twenty-two grains, which are multiplied by four grains of either of the articles above mentioned, to the power of one thousand three hundred and twenty grains. So it is with every other combination, so that the power of any one ingredient, is multiplied by the power of every other ingredient, and so on, so that a small quantity of any one ingredient, will be capable of doing an injury, which thousands bear ample witness to.  
Let those who are weary of the usual means of the Pills, try these, and you will find them to be the best.  
For sale by **WILL. PECK,** Raleigh wholesale and retail Agent, at 25 cents per box.

### Dr. A. F. Cooper's Spino-Abdominal Supporters.

THE Subscribers have on hand a supply of the above valuable supporters, which are recommended for all persons, afflicted with muscular debility, Round shoulders, or protuberant Uteri.  
Prof. Mory thinks they are very well adapted for some varieties of incipient spinal distortions, as they afford the useful combination of shoulder brace and Abdominal supporter, with very decided support to the spinal column.  
The above braces are recommended by the Physicians generally, who have seen them, and we have sold a number to citizens of this place, who are highly pleased with them.  
A gentleman observed a few days since, that he had been wearing a very celebrated body brace for some time, and that he would not give one of the above, for fifty such.  
They need no puffing as they speak for themselves.

### GUIDE TO CALIFORNIA.

WHAT I saw in California; being the Journal of a Tour, by the Emigrant Route and South Pass of the Rocky Mountains, across the Continent of North America, the Great Desert Basin, and through California, in the years 1846 and 1847, by Edwin Bryant, late Alcalde of the Francisco County Edition, with an Appendix, containing Accounts of the Gold Mines, various Routes, outfits, &c., one volume 12mo. with a map.  
This is an interesting and useful volume. It presents, in an attractive form, a great body of information, concerning the interesting region which it describes, and is fitted to direct public attention to the resources and advantages of the vast Pacific territory, which we have recently acquired. Regarded as a work descriptive of a very interesting and comparatively unexplored portion of our own territory, it can scarcely fail to entertain and instruct the general reader, while to the emigrant and the traveller towards the Pacific, it is indispensable.—WASH.
