Among the few places of comparative security. I

beg leave to call the attention of the public and par-

ticularly of those residing in the cholera districts, to

the Buffalo Mineral Spring, situated in

town of Clarksville. The tonic powers of this water,

so potent in imparting tone and vigor to the diges-

tive organs, and its diurctic qualities, so efficient in

purifying and cleansing the blood, can hardly fail to

brace up and fortify the system against the insidious

approaches of this pestiferous malady. We are told

that whatever gives tone and energy to the stomach,

bowels and skin, and brings into play and harmo-

nious action the innumerable sympathics pertain-

ing to these organs, are the best preventives to Chol-

era. Such is believed to be the effect of the Buffa-

lo Water. It is especially worthy of remark in this

regard, that in almost every country and region vis-

ited by this epidemic, its appearance is preceded by

some derangement of the stomach and bowels ; or

what are called premonilory symploms, engendered,

it is supposed, by some pestilential poison, diffused

in the general atmosphere. It is to prevent the

coming on of these precursory symptoms, as likewise

to hold them in check when they exist, that the

Buffalo Water is recommended. While it imparts

tone to the stomach and increases the appetite, it

stimulates the liver to a healthy secretion of bile.
