To Revolutionary Claimants.

OR several years past, many inquiries and searches have been made, and without success, for the official proofs of the grades and services of the Officers in the North Carolina line, in the War of the Revolution : and for the want of such proofs, the claimants for those services have been unable to establish and obtain pay for the same.

This is to inform those interested, that the subscriber has turned his attention to a laborious examination of thousands of old papers and records in the Capitol, and after much time and labor spent in the search, has found among files long since deemed useless, the Records in question, where they had been misplaced and supposed to be lost—shewing the official proof of the grades of thousands of such officers; such as Colonels, Lieutenant-Col-

onels Captains Lieutenants and Ensigns. And the Subscriber will promptly attend to letters to him addressed, postage paid, calling for such proof; and will forward official certificates in due form of law, of the grades of such officers, on reason-J. The Buffalo Springs.

THE recent appearance of Asiatic Cholera in the principal cities and several of the interior towns in the State of Virginia, together with the general prevalence of the Cholera Diarrhoea throughout the country, induces the belief that its ravages will be much more widely extended than in the me-morable visitation of 1832. Under the influence of these appalling apprehensions, it is perfectly natural for every individual to look around him for some place of safety during the sojourn of this fearful visiter. The all-absorbing question presents itself to every one: What shall I do, or where shall I go to escape this terrible scourge?

Among the few places of comparative security, beg leave to call the attention of the public and particularly of those residing in the cholera districts, to the Buffalo Mineral Spring, situated in the upper end of Mecklenburg County, Va., two miles South of Dan River, and seven West of the town of Clarksville. The tonic powers of this water, so potent in imparting tone and vigor to the digestive organs, and its diuretic qualities, so efficient in purifying and cleansing the blood, can hardly fail to approaches of this pestiferous malady. We are told The 5th Section of the Act of Incorporation pro- that whatever gives tone and energy to the stomach, ited by this epidemic, its appearance is preceded by some derangement of the stomach and bowels; or what are called premonitory symptoms, engendered, in the general atmosphere. It is to prevent the coming on of these precursory symptoms, as likewise to hold them in check when they exist, that the Buffalo Water is recommended. While it imparts tone to the stomach and increases the appetite, it stimulates the liver to a healthy secretion of bile, and that fatal current of fluids, drawn, it may be, to direction, to be finally eliminated and thrown off by the renal organs. This view of the operation of the Water is not a mere hypothesis, patched up for the occasion, but a matured opinion, based on long experience and observation in its use, in the ordinary bowel complaints of the country. It is certainly not the least familiar of the laws governing the animal machine, that whatever increases the secretory action of the kidneys, lessens the quantity and changes

the quality of the fluids thrown on the bowels. Apart from the value of this Spring as a prophy. lactic in warding off the Cholera, it is located in an elevated and healthy section of country, where that fearful disease has never yet made its appearance.-The proprietor has made arrangements for the comfortable reception of three hundred visiters. Those who may think proper to seek this pleasant Summer retreat, remote from the usual haunts of Cholera. will find good appetites, good mutton and go d rociety. Added to these solid comforts, the young and the gay will meet with all those light amusements and recreations common to other watering places in

The objects sought to be attained are a thorough Education, and high moral improvement. To accomplish these desirable ends, no efforts are spared by the Principal, who has had successful experience of twenty years' duration, and who has never studied or practised any other profession than that of teaching. The location is, and has ever been, famed for health; the society is good, and Church privileges excellent.
