DR H.F. PEERY'S VERMIFUGE OR "DEAD SHOT," FOR WORMS.

A RIGHLY VALUABLE PREPARATION. CAPABLE FROM THE PROMPTITUBE OF ITS ACTION, OF CLEARING THE RISTEM IN A FEW BOURS OF EVERY WORM.

THE origin, developement, and support of worms in the human system, are to be attributed to a mittent Fevers, Price depraved and debilitated condition of the stomach

and bowels; it being an established fact, that where the digestion is unimpaired, and the general powers of the system in a healthy state, they can find no habitation. This preparation has the peculiar advantage of not only destroying every worm, but also of producing a healthy action of the stomach and other organs of digestion, thereby relieving many complaints arising from a derangement of the digers tive organs. Although prompt and certain in itoperation, and not unpleasant to the taste, it is per-

fectly safe and adapted to the tenderest age. The following certificate was addressed to Mesars
