of proved defective, namely, the good sense of people. The spirit of faction and discord may jet its brief hour on the floor of either House of (orgress, but it will be ultimately silenced by the people, who will not fail to speak in such author-nire tones as their refractory servants dare not isoley. We observe that the venerable patriot nd pacificator, Henry Clay, builds upon this not, and smiles at the violent demonstrations of

ne oltras. His great speech in the Senate, on Monday, the 13th, which we had the gratification whear, and in which he went over the grounds the Compromise report, was so argumentative ad conclusive, that with some few exceptions the Senators gathered round him at the close, and estified their admiration of his effort, by cordial rectings and congratulations. The scene is thus greenly described in a letter to the " Philadelphia

Ledger:" "After the termination, Dan'l Webster rose to dake him by the hand. So did Gen. Cass, whose great urbanity and genuine love of country actually smoothed the wrinkles on his face, and made him look as sleek and hearty as a boy of seventeen. Other Senators followed the example of Webster and Cass, till the old Lion of the West was surnunded by an anxious crowd of admirers. To judge from Mr. Clay's countenance, himself was perer better pleased with what he had done, and when he expressed his conviction that the bill would pass, and that the country would stand by i, the Senate and the galleries responded with theerful hearts and countenances beaming with

### THE GALPHIN CLAIM.

Mr. Bunt made a report in the House of Representatives, on Friday last. The report was then read-a long one-giving the history of the Galpain claim. The committee say they are satisfied hat there was nothing improper, irregular, on un usual, in the conduct of u embers, clerks, or other officers, and that the appropriation was made in iseusual mode. Mr. Crawford had an agreement between the claimants that he should receive one half of the sum realized. Nothing was disclosed by the testimony to show that the Secretary of the Treasury, or the Attorney General, knew that Mr. Crawford had any interest or agency in the matter. until after it was adjusted. The report concludes with the following resolutions:

1. Resolved. That the claim of the representaires of George Galphin was not a just demand against the United States. 2 Resolved, That the act of Congress made it

the duty of the Secretary of the Treasury to pay the principal of said claim, and it was therefore paid in conformity with law and precedent. 3. Resolved, That the act aforesaid did not authonge the Secretary of the Treasury to pay interest on said claim, and its payment was not in conformity with law and precedent.

We publish below a letter from a most reliable source, showing the manner in which the doings of the agitators.

CONCORD, May 11th, 1850 MR. GALES: Sir-I see that the impression has gone out that the Convention held in Charlotte, sometime in April last, was a Convention of this District. I know that it was intended as such, but it turned out to be nothing more than a County meeting. Delegates had been appointed in one or two other Counties Lincoln and Catawba, I think, and some of them were there, but they refused to go in, or to have any thing to do with the meeting. So that the delegates appointed to attend the Nashville Convention will have no authority to represent any portion of this District, except Mecklenburg County. As for Cabarrus, she had no part nor lot in the Charlotte Meeting; one man from the County took part in the meeting, but he did it upon his own responsibility. My object in writing to you, therefore, is to let you know that the idea that said meeting was a Convention of this district, is entirely and altogether a mistake. The fact is, so far as I have been able to learn, the people of this District, without distinction of party, are opposed to the Nashville Convention.
