WASHINGTON, May 26th 1850. I again have strong hopes that the friends of the ompromise will triumph. There was no possi-chance for the President's plan; a few North-Whigs merely wished it believed they favored but I know they would not have supported it. The only hope for any thing like a speedy settle-ment, is the Compromise. The people must con-inue to speak out—they must call their maddened Representatives in Congress to reason! They gust assemble throughout the Union and make nown in tones as loud as Heaven's thunder their vishes on the subject. The members of Congress will not dare much longer to neglect their duties. The disgrareful scenes in Congress have been per-The disg and and submitted to, too long. by that consummate hypotrite, Wm. H. Seward, that one's conscience when contravened by the Con-stitution, claims his allegiance, whilst the fatter by the natural law is subordinate. It is a fact worthy of remarking that nearly all the members of the Garrisouian School style themselves "Free soil dem-ocrats" claiming to belong, as they in fact do, to the Locofoco party. The whigs scorn every con-nexion whatever with the motley crew. As regards the Wilmot Proviso, the public sentiment is that it is constitutional, but an abstraction, and therefore inexpedient, as the only effect of its application would be to irritate the South. As regards the ad-mission of California, the sentiment seems to be that she ought to be admitted at once, without qualifica-tions or conditions—since she herself accepted and tions or conditions-since she herself accepted and established by her own act the only condition-that prohibiting Slavery-which it was in the power Congress to impose-thus taking the matter in their own hands.

FREE SUFFRAGE. Mr. Holden has made quotations from our re-marks on "free suffrage," some time ago, and confounds them with " equal suffrage," on which

contounds them with "equal suffrage," on which we have since said a few words. If our friend of the Standard will take note of the language we used on the former occasion, he will perceive that its force is directed against the levelling and demoralizing doctrines of those who advocated "free suffrage"—such as " the desecra-tion of the Bible and the abolition of matrimony," See "The Standard's education of the suffrage." Scc. The Standard's advocacy of ' free suffrage,' at the last Governor's Election, we believed to be a humbug, got up for party effect; and so it pro-ved to be at the ensuing session of the legislature. After the democracy got into office, they forgot all about their great love for the " large liberty" of the monle the people.

In regard to the question of "free suffrage," the election of judges by the people," we take our position now and intend to stand to it. Let the matter be submitted to the people, by an act of the next Legislature. Submit to them, the true sovereigns, the decision of this. If they de-

cide that the Constitution shall be altered to this effect, all will be right. We belong to the old Republican School—not to the "progressive de-mocracy," that has "progressed" out of sight of all the ancient republican land-marks. We go for the sovereignty of the People, not the sover-eignty of Clubs and Cliques.—Wil. Com.

From the (Boston) Chronotype The great popularity of Wistar's Balsom of Wild Cherry has induced some mercenary individuals in various parts of the country to compound quack nostrums for the purpose of deceiving the public and raising money on the well-earned reputation of this truly valuable medicine. in the absence of the necessary data, that at this time, the number of papers daily issued in Wiscon sa will, at least, double that of North Carolina, although the population of the latter is as two to one to the former. There are published in this c:ty seven different new spapers, five of which are issued daily, one weekly and one semi-monthly, making in all, including the tri-weekly semi-weekly and weekly of some of them, not less than thirty-five issues perweek. Of the five dailies, one only is Whig, the other four being dedicated to that blind Idol of the vulgar and deluded rabble-Locofocoism I Two of the five (both Locofoco) are printed in the German hogoage, which fact, more than any thing else, prevents the German population in this State from becoming Americanized sooner, and causes them so scrupulously to adhere to the habits and customs of the "Old Country." One of their sacred customs is to have their waltzing and cotillion partics on Sunday evening.

The political complexion of this State, as you are aware, is decidedly Locofoco; and, if the same cause continues to produce the same effect, will long remain so. Of the American population, the Wuigs have a decided majority; and this majority is com posed of the most intelligent and enterprising men vehave. But to state that Whigs are more inte !igent and enterprising than Locofocos is unnecesary-it is a truism known to the merest ass. Of course, so long as men are ambilious and aspiring. there will be exceptions to this general truth. Men

sfintelligence sometimes turn demogogues, who are willing to compromise respectable associations, as well as a deserved reputation for talents, in order to obtain political preferment. This is eff-cted by pandering to the grosser appetites and caprices of the conside. The foreign population of this State is more than one third of the entirety; and the foreigners, almost to a min, are locofocos. A few intelligent Irish are Whigs. The English who are generally men of intelligence, are all Whigs. The English, however, are few Whigs among the Gerains are like angels visits, but if you should happen lomeet a very intelligent German who has been in this country long enough to learn something of its institutions, it is prima face evidence of his being a Whig-if he is not, he is at least " well disposed" towards the Whigs. This universal Locofocoism smong the German population, I have been informed, is attributable to the fact that the anti-monopoists in the German States style themselves Democasts. The emigration to this country is composed of this class So there is something in a name, though there may be nothing in those bearing it -This simple fact, however unressonable it may seem, will doubtless operate for many years to the end of abjecting the otherwise prosperous State of Wisconin to Locofocratic misrule and corruption. The mastitution of the State enables a foreigner to beome an elector as soon as a Virginian who comes are to live. I extract the qualifications of electors hom the constitution of the State : "Every male secured his nomination, came from an honored imon of the age of twenty-one years or upwards,beinging to either of the following classes, who shall ave resided in the State for one year next preceding By election, shall be deemed a qualified elector at the election. 1 White citizens of the United States. 1 White persons of foreign birth, who shall have debased their intention to become citizens, conformably to he laws of United States on the subject of naturalizain" As soon as a foreigner lands here for the pur-Nee of settling some demagogue takes him before the derk of the court, when he declares his intention, and aving lived here twelve months, becomes invested With all the civil rights and immunities of a native. No minction is made by law between resident aliens ad eitizens, in reference to the possession, enjoy Bent, or descent of property. The Locofocas have the reputation of advocating the above provisionsthe Whigs of being hostile to them

All that the Whigs can do is to hope on, " Eterhal hope" is all that the political Pandora has left to console them. The day will dawn, when Wisconsin vill be redeemed from the yoke of Locofocoism. We have a very large school fund, and unless the Lefisiature pass an act that foreigners shall not be in-Bructors, but shall be kept in perpetual ignorance, the rising generation will discard the errors of their meestors. I trust I have succeeded in giving you tome idea of the condition of the political atmosphere to between the two great parties in this State. I Fayetteville Observer.

That influence was opposed to his nomination. The delegates from the whole Wake Congressional district, including those from Raleigh, were in favor of the nomination of a distinguished citizen residing in the east; and the strongest influence that was exerted in favor of the nomination of Gov. Manly, and which indeed citizen of the district in which the corresponden referred to, lives-the 9th district. It is therefore unjust in the extreme to charge that Gov. Manly's nomination was effected "through the influence of a few central leaders to honor an undeserved favorite ;" and it is painful to see such aspersions without cause, cast upon so worthy a Whig and so faithful a public servant as is Gov. Manly .-He did not seek the nomination-this we know. It was tendered to him, fairly and honestly, as he thought, and ever ready as he had always been to serve the Whig party, what could he do but accept it ?.

It affords us pleasure to state in this connection that the manner in which Gov. Manly has discharged the duties of his office, has given entire satisfaction in this section, to all men of all parties. Not a word of complaint is heard. There

The season being fine, and the great political Conventions then being held there, will give additional interest to a visit to the Capitol at that time; it is hoped therefore, that every Reformed Physician in the State will attend this Convention.
