MEMORIES. BY GEORGE D. PRENTICE. Once more, once more, my Mary dear, I sit by that lone stream, Where first within thy timid ear I breathed love's burning dream ; The birds we loved still tell their tales Of music on each spray, And still the wild rose decks the vale-But thou art far away.

In vain thy vanished form I seek, By wood and stream and dell, And tears of anguish bathe my cheek Where tears of rapture fell ; And yet beneath these wild wood bowers Dear thoughts my soul employ, For in the memories of past hours, There is a mournful joy.

Upon the air thy gentle words Around me seem to thrill, Like sounds upon the wind harp's chords When all the winds are still, Or like the low and soul-like swell Of that wild spirit tone, Which haunts the hollow of the bell When its sad chime is done.

I seem to hear thee speak my name In sweet low murmurs now, I seem to feel thy breath of flame Upon my cheek and brow; On my cold lips I feel thy kiss, Thy heart to mine is laid-Alas that such a dream of bliss Like other dreams must fade !

MISCELLANEOUS.

From the American Farmer. RENOVATION OF WORN OUT LANDS. We copy with great pleasure the following excellent paper from the pen of H. K. clover seed. Harrow them in thoroughly, and Burgwynn, Esq., of Northampton County, let the work be finished by the middle of October. N. C. from the May No. of the Southern The return will, of course, depend somewhat on Cultivator, in which paper it has been pub- the quality of the 'old field;' but I venture to lished, in anticipation of the "Patent Office afflem that it will amply repay all labor and ou-Report," for which it was written. We lay, and astonish by the great result apparently agree with the enlightened editor of the Cul- from so trivial a cause. tivator, that if the "Report" contained noth- from the use of lime and clover, and I do not ing else than the essay in question, the mo- mean to compare the two methods of renovating which will be expended in printing it, land as equal; but where lime is not to be had. will be profitably laid out. What Mr. B. there is no application that can compare for a mostates is not theory, which may or may not ment, on well drained land. (if it need draining) he true, but are the results of his own prac- with plaster, peas and deep tillage. No gold tice and experience, and, therefore, implicitly mine is so valuable as a good marl pit. I am

In reading Mr. B.'s excellent communication, we regret that lime and marl were not the clover if sown early in October, will have available in his district, as either, if used in grown so as to shade the land pretty well, even connection with his pea-leys, would render on the waste lands I speak of. It should not be his soil infinitely more productive. It is grazed the first year at all; in the February after. possible, however, that the stiff clavs which underlay the lands of his neighborhood, and which are brought to the surface by his deep ploughing, contain notable portions of lime, sun acts so injuriously on a bare surface. The potash, and salts of iron in various stages of roots of the young clover being protected from supplies of the two first named substances; shoots forward with the extiest warmth of spring tie Manufactures, consisting of but even in that case, benefit would result and smothers all weeds. When weeds mature from the applications of lime in the quantity so properly suggested by the discrimina to any other, and is all returned to the land in ting mind of Mr. B., or even less quantities droppings of the stock while grazing upon it. As -"A quantity of lime," says Mr. Puvis, proof of i's profit, for three years I have never ing. "which does not exceed the thousandth part | fed my working horses on grain or fodder, from | of the tilled surface layer of the soil, a like the middle of May till the clover fails. They are proportion of drawn ashes, or a two hundredth | turned on the clover field after the day's work is part, or even less, of marl, are sufficient to over, and taken up in the morning in good condimodify the nature, change the products, and increase by one-half the crops of a soil des- time they are thus treated, and work better. titute of the calcareous principle." In another part of his valuable essay on the prop- summers, during which period it has dropped three erties and modes of applying lime, he speaks | crops of leaves and stocks, and thereby greatly most approvingly of the practice of the farmers, La Sarthe, France, who apply, every third year, 114 bushels per acre, in compost made of one part lime, and seven or eight parts of good mould or earth.

In those districts of country where both crop of wheat comes off. If corn, instead of lime and marl are to be had, but where the wheat, be grown, sow peas broadcast among the soil has been exhausted by improvident cul- corn at the last plowing, soaking the seed and ture, by adopting the deep tilth and pealey system of Mr. B., and by liming or marling, the proprietors of such lands will greatly add to their productive capacities. We invite your attention to the following:

Improvement of Worn Out Lands tinued quantity of thousands of acres lying waste by the Use of Peas and Clover. By H. K. Burgwynn, Esq., of Northampton County, N. C.

Having heard from various reliable sour- it will not again relapse, unless the former barbaces of the great success of Mr. Burgwynn rous and senseless practice of exhaustion and in renovating worn out lands in North Carolina, we were particularly anxious to obtain, all cases spread it on the land, after the first crop from his own pen, an account of his practice of peas had been turned under, to the amount of in this important matter, for the Agricultural fifteen or twenty bushels per acre. This quantipart of the Patent Office Report. At our re- ty will greatly benefit the land, and enable the quest, Mr. B. sent the following able and in- owner shortly to repeat the application of a like ses, built of the finest material, of the latest styles structive essay, which we take the liberty to quantity." publish in the Cultivator, simultaneously with its going through the press at Washing-

"There are large bodies of land lying in Eastern and Middle Virginia and North Carolina, which have been so much reduced by continued cropping, planting tobacco, cotton, and sowing oats, as no longer to pay the cost of cultivation, and are 'turned out as waste lands.' These really still possess a good share of fertility, and, by a very moderate of Snuff, of different qualities, Gun Powder and expenditure of labor and attention to com- Black Teas, Salt, Leather, and Nails, Nos. 4 to mon sense principles of agriculture, may be | 20. reclaimed, and have their productiveness in- A fine Barrel of best old Southampton Cider Vinecreased from 190 to 150 per cent. They can gar, together with a great many other articles too be made truly valuable; and I do not hesi- tedious to mention. All of which will be sold on tate to say, as the result of my experience, accommodating terms, by that they will give a greater profit in the course of five years' cultivation than can be

derived from any except our rich river lands. "This is the method I have adopted, and by which I have increased the products of such lands from 1 to 2 barrels of corn to 4 barrels per acre. The increase of wheat is on the first Thursday in October. proportionably greater than that in corn. My system of culture is substantially as fol-

"If the 'broom straw,' in which these Waste lands always grow up, retains any sap, by which, when turned under, fermentation will ensue and cause the straw to rot, let the land as it is, be plowed with the largest size plow, drawn by three or four horses, running as deeply as possible - say not less than ten

THURSTON'S

FOUNTAIN HOTEL, (FORMERLY BELTZHOOVER'S) Head of Light, near Baltimore St.

BALTIMORE. ed and popular Hotel, under the management of its present proprietor, has inspired him with further energy and determination, and no expense or attention of his or that of his Assistants will be spared, to maintain with the patrons of the "Fountain"

palmiest days" of Beltzhoover's conductorship. To increase its former attractions and comforts, during the past season, the Hotel has undergone many changes, the Proprietor having made heavy outlays in introducing some of the best and latest improvements --- which, together with its central position, being located in the very heart of the business portion of the city, and near the centre of Baltimore Street, and within a few minutes walk of all the Depots and Steam Boat Landings, it invites the Merchant, the Farmer, the Artisan, as well as the Man of Pleasure to make the Fountain Hotel his home during his sojourn in Baltimore.

The Ladies' Department, Containing Private Parlors, Saloons, Reception Rooms, Ordinary, and extensive suites of large and airy Chambers, fitted up in a style and elegance that cannot fail to give satisfaction and comfort. PORTERS are attached to the " Fountain," who may be recognized by the Badges on their Hats, and are always in the attendance at the different Derots and Steamboat Landings, who will receive Checks, take charge of the Baggage and convey it to the Hotel. PHINEAS THURSTON, Proprietor.

THE undersigned being engaged, and holding s I position that brings his services in immediate connection with the Guests of the above Hotel, he trusts, offers a further inducement to his numerous friends and acquaintances of the "Old North State," when they visit Baltimore, to stop at the "Fountain," where he assures them they will be received and entertained in a manner that shall strengthen this acquaintance and secure for its Proprietor their goodwill and patronage.

STEAMBOAT NAVIGATION BETWEEN

FAYETTEVILLE AND WILMINGTON. HE undersigned Proprietors of the Cape Fear Steam Boat Company beg leave to tender their thanks to the public for the liberal patronage received during the last season, and take this method to inform their patrons and the public generally that they have added over fifty per cent to the Capital Stock of the Company, in boats. The draugh of the New Steamboat "Chatham," is calculated to navigate the river at all stages of water, giving ships ers by this line a decided advantage in getting their goods up without delay, especially in the Fall season, when the River is usually too low for Steam Boats of ordinary draught to run.

The Boats composing this Line are The Steamer Gov Graham, 21 years old. Chatham 2 years old. Tow Boats Mike Brown Telegraph Cumberland . Express

All the above Boats are in the very best condition for the Fall business. The undersigned feel warranted in appealing to the shipping public for such an increased patronage as will renumerate them to some extent at least for the additional capital invested, and promise with every confidence that shippers by this Line shall be as well if not better served than they can be by any other on the River.

The arrangements by the Copartners are intended necessity of any further increase of boats, the public delay.

Our rates for Freight at all times will be the cur rent rates charged by others.
Bills of Luding for goods intended to come by this Line should be filled up to the 'care of the Cape Fear Steamboat Co., Wilmington.' One copy be

June 3rd, 1850. PROFESSOR A. C. BARRY'S TRICOPHEROUS. Or Medicated Compound.

NFALLIBLE for renewing, invigorating and beautifying the hair, removing scurf, dandruff, and all affections of the scalp, and curing eruptions on the skin, diseases of the glands, muscles and integuments, and relieving stings, cuts, bruises, sprains &c., &c. With this preparation "there is no such gers, therefore, its position is peculiarly desirable.

The Subscriber returns thanks to his friends and the public for the liberal patronage they have ex of all professions, and ladies who have used it for tended to him, and assures them that he will en- years in their dressing rooms and nurseries, admit with one accord, that, for imparting vigor, gloss, luxuriance and curl to the hair, eradicating scurf and dandruff, healing wounds, caring contusions, sprains, stings. &c., and relieving diseases of the skin, the glands and the muscles, it has no equal among the multitude of compounds advertised in the public prints, or used in private practice. In cheapness as well as efficacy, Barry's Tric opherous is unrivalled. The immense cash sales of the article have enabled the inventor to supply it at retail at twenty five cents per bottle, which is from fifty to one hundred per cent less than the prices of any other preparation now in use. The scientific treatises on the built and skin (embracing valuable directions for the culture and prezervation of Nature's choicest ornament.) in which each bottle is enclosed, is alone worth the
