King's Magnetic Washing Liquid. his Liquid is the beast agent ever yet discover. ed for removing dirt in every form, to be used in all cases where soap is required.

Doing away at once with washboards and hard ubbing, a common sized washing may be done in little over an hour with one gill of this Liquid; it softens and removes the dirt, leaving the articles of the most brilliant whiteness. It is perfectly harmless in its operations, and clothing will wear much longer than when rubbed to

pieces by the common method of washing. When used in convexion with Soap it has equal in cleaning windows and Paint, washing lishes of all kinds, cleaning Milk Utensils, Scrubbing Floors &c., at a trifling expense. Warranted not to injure the finest materials,

A Derangement of the Nervous System. in NERVOUS COMPLAINTS, Drugs and Medicinese increase the disease, for they weaken the vital suergies of the already prostrated system; while under the strengthening, lifegiving, vitalizing influence of Galvanium, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great pseuliarity and excellence of

Dr. Christie's Galvanic Curatives consists, in the fact that they arrest and cure disease by east ward application, in place of the usual mode of drauging and physicking the patient, till exhausted Nature sinks hopeleasts under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and naver do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

Now one pare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worse ay mptoms of an attack, and sumply the the Belt sround the body, using the Magnetic Fluid as directed. In a most period the insensible perspiration will act on the positive element of the Belt, thereby causing a Onlyanic circulates which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE TERMISEASE OF YEARS.
