ain, and pleasant.

Dr Hoofland's Celebrated German Bitters, for the care of Liver Complaint, Janudice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of popular medicines of the day. These Bit. ters have been used by thousands. and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great considertion They are pleasant in taste and smell, and can be used by persons with the most delicate stomache with safety, under any circumstances .-We are speaking from experience, and to the afficted we advise their use."

"Scott's WERKLY," one of the best Literary papers published, said, August 25-"Dr. Hoofand's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much decry in case of female weakness. As such is the case, we would advise all mothers to obtain a bottle and thus save themselves much sickness. Persons of debilitated constitutions will find these Bitters advantageous to their health as we know from experience the salutary effect that they have open weak systems."

Judge M. M. Noan, a gentleman of great liter. ary and scientific attainments, said in his " New fork Weekly Messenger, January 6, 1850. "Dr. Hofland's German Butters .- Here is a pre-

paration which the leading presses in the Union appear to be ununimous in recommending, and the reason is obvious. It is made after a proscription furnished by one of the most celebrated physicians of m dern times, the late Dr Christopher Wilhelm Hoodand, Professor to the University of Jena, Pri vate Physician to the King of Prussia, and one of the greatest medical writers Germany has ever proaced He was emphatically the enemy of humbug. and therefore a medicine of which he was the inrenter and endorser may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomch, Constipation and all complaints arising from disordered condition of the stomach, the Liver and the intestines. Nine Philadelphia papers express their conviction of its excellence, and several of the edi ors peak of its effects from their own individval experience. Under these circumstances we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article

the editor says of DR. HOOFLAND'S GERMAN BITTERS. " It is seldom that we recommend what are termed

Patent Medicines to the confidence and patronege of our readers; and, therefore, when we recommend Dr Hoefland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nestrums of the day, that are noised about for a brief period and then forgotten after they have done their guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the faculty itself." Evidence upon evidence has been received (like

the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its fator, is, that there is more of it used in the practice of the regular physicians of Philadelphia, than all other nostrums combined a fact that can be easily established, and fully proving that a scientile preparation will meet with their quiet approval

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious dissates; the effect is immediate. They can be administered to PEMALE of INPANT with safety and reliable benefit, at any time.

A Derangement of the Nervous System.

The in NERVOUS COMPLAINTS, Drugs and Medicines increase the disease, for they weaken the sital energies of the already prostrated system; while under the strengthering, life-giving, vitalizing influence of Galvanism, as applied by this heautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor

consists, in the fact that they arrest and cure disease by our ward application, in place of the usual mode of drugging and physicking the patient, till ashsusted Nature sinks hopesally under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANEC BELT, suppose the case of a person afflicted with that bane of civilination, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their solling on the nerves and muscles of the stomach, afford temperary solled, put which leave the patient in a lower state, and with marred faculties, after the action thus excited has ceased. Now comfaculties, after the action thus excited his ceased. Now compare this with the effect resulting from the application of the GALVANIC BELLT. Take a Dyspeptic sufferer, even in the worse symptoms of an attack, and simply tie the Balt terms the body, using the Magnetic Fluid as directed. In a start period the insensible perspiration will act on the positive element of the Belt, thereby causing a Calvania extension which will pass on to the negative, and thence back again the positive, thus keeping up a continuous Calvania area lives the positive, thus keeping up a continuous Calvania to the positive, thus keeping up a continuous Calvania to the positive, thus keeping up a continuous Calvania to the positive that seeping up a continuous Calvania to the positive that are PERMANENTLY CURED.
