DR. HODZLAND'S Celebrated German Bitters PREPARED BY Dr. C. M. Jackson,

AT THE GERMAN MEDICINE STORE. No, 120, Arch Street, Philadelphia.

Their power over the above diseases is not excelled, i equalled by any other preparation in the United States, as the cures attest, in many cases after skil ful physicians had fittled. These Bitters are worthy the attention of invalids

Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weaknesses and affections of the digestive organs, they are withal, safe, certain, and pleasant.

READ AND BE CONVINCED. From the "Boston Bee."] The Editor said Dec. 22d.

"Dr Hoofland's Celebrated German Bitters, for the eur- of Liver Complaint, Jaun-fice, Dyspepsia Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands and a friend at our elbow says he has himse!f received an eff-ciun! and permanent cure of Liver Complaint from the use of this remedy We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration . They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances -We are speaking from experience, and to the afficied we advise their use." "Scott's WEEKLY," one of the best Literary

papers published, said, August 25-Dr. Hoofand's German Batters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in case of female weakness As such is the case we would advise all mothers to obtain a bettle and thus save themselves much sickpess. Persons of debilitated constitutions will find these Bitters advantageous to their health as we know from experience the salutary effect that they have upon weak systems." Judge M. M. Noan, a gentleman of great liter- BOOK SELLER AND STATIONER

ary and scientific attainments, said in his " New York Weekly Messenger, January 6, 1850. "Dr Hofland's German Butters - Here is a pre paration which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a proscription furnished by one of the most celebrated physicians of m dern times, the late Dr Christopher Wilhelm Hooft and Professor to the University of Jena, Pri rate Physician to the King of Prussis, and one of the greatest medical writers Germany has ever produced He was emphatically the enemy of humbug and therefore a medicine of which he was the inventer and endorser may be confidently relied on. He specially recommended it is Liver Complain, Dyspensia, Debility, Vertigo, Acidity of the Stom ach, Constipation and all complaints arising from a disordered condition of the stomach, the Liver and the intestines. Nine Philadelphia papers express their conviction of its excellence, and several of the al experience. Under these circumstances we feel warranted, not only in calling the attention of our teaders to the present proprietor's (Dr. C. M Jackson's) preparation, but in recommending the article

to all afflicted." MORE EVIDENCE. The PHILADELPHIA SATURDAY GAZETTE, the best family newspaper published in the United States

the editor says of

DR. HOOFLAND'S GERMAN BITTERS. " It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr Hoefland's German Bitters, we wish it to be distinctly understood that we are not speaking or the nostrums of the day, that are noised about for a brief period and then forgotten after they have done their guilty race of mischief, but of a medicine ang established, universally prized, and which has met the hearty approval of the faculty itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its Ator, is, that there is more of it used in the practice of the regular physicians of Philadelphia, than all other nostrums combined-a fact that can be easily established, and fully proving that a scientiue preparation will meet with their quiet approval

when presented even in this form,
That this medicine will core Liver Complaint and Dyspepsia, no one can doubt, after using it as sirected. It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious distases , the effect is immediate. They can be adtelable benefit, at any time.

The great peculiarity and excellence of Dr. Christie's Galvanie Curatives, consists, in the fact that they arrest and cure disease by our ward application, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

For about twenty years I had been suffering from Dyssep sia. Every year the symptoms became worse, nor could lobtuin permanent relief from any course of medical treatment whatever. About fourteen years since, in consequence of frequent exposure to the weather, in the discharge of my pertoral duties. I became subject to a severe Chronic Rhemma tism, which for year after year, caused me indescribeble anguish. Farther: in the winter of '45 and '45, in consequence of preaching a great deal ir my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suppension of my pastoral labors. My nercous system was new thereoughly prestrated, and as my Bronchitis became worse, so also did my Dispepsia and Rhemmatic affection—thus evisating that these disorders were connected with each other through the medium of the Nervous System. In the whole pharmace posis there seemed to be no remedial agent which contact reach and recuperate my Narvous System; every thing that had tried for this purpose had completely falled. Af last was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency,) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. To my great attonishment, is two next at Dispersion that exercise of account of the Banchitti, and my Rhemmatic affection Mas entirely crassed to the experiment.
