Persons of debilitated constitutions will find these Bitters advantageous to their health as we know from experience the salutary effect that they have upon weak systems."

Judge M. M. Noan, a gentleman of great liter. ary and scientific attainments, said in his "New York Weekly Messenger, January 6, 1850. "Dr. Hoffand's German Butters .- Here is a pre paration which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a proscription furnished by one of the most celebrated physicians of modern times, the late Dr. Christopher Wilhelm-Hoofind, Professor to the University of Jepa, Pri vate Physician to the King of Prussia, and one of the greatest medical writers Germany has ever pro-duced. He was emphatically the enemy of humburg, and therefore a medicine of which he was the libventer and endorser may be countently relied on He specially recommended it in Liver Complaint Dyspepsia, Debility, Vertigo, Acidity of the Stomach, Constipution and all complaints arising from a disordered condition of the stomach, the Liver and the intestines. " It is seldom that we recommend what are termed Patent Medicines to the confidence and patranage of our readers; and, therefore, when we recommend Dr Hoeflard's German Bittern, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noted about for a brief period and then forgotten after they have done their guilty rate of mischief, but of a medicine long established, universally prised, and which has met the hearty approval of the faculty itself?

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its firor, is, that there is more of it used in the practice of the regular physicians of Philadelphia, than all other nostrums combined—a fact that can be easily established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form. our readers; and, therefore, when we recon
