MAGNIN'S LUCINA CORDIAL OR THE ELIXIR OF LOVE.

This is the only actual remedy ever discovered siens, and all diseases occasioned by certain secret mended for the same complaints are worthless in. itations which its unrivalled excellence, fame, and popularity have brought into the market. The medical faculty of Europe, and the United States are unanimous in their recommendations of the Lucina Cordial, and have not given their sanction in a single instance that has been authenticated, to any other compound for the same purposes. The nature of the maladies relieved by the Lucina Cordial are generally such as to leave the publication of certificates of cures out of the question, or the proprietor could produce a host of the most conclusive testimony to show that the great reputation which it enjoys was not accidentally obtained, but is firmly based upon its positive, and apparently miraculous virtues. In all directions are to be found the happy parents of healthy offspring, who would not have been so, but for this extraordinary preparation. And it is engally polent in the many diseases for which it is recommended. Objection has been

naturally made to the price of the Lucina Cordial; market in opposition to it, is sold cheaper; but the fact is that the cordial cunnot be afforded less. and ought to be much dearer, as many of the ingredients which compose it are among the costliest things in nature; whereas the others are made up of cheap drugs worth but little in money, and less in merit; and it is a fact, that at least one of the genters up of these same mixtures, makes it a point to add one bottle of the Lucina Cordial to a given number of tone and virtue and thus solace his conscience.

to avail themselves of its benefits : PERRY, August 10, 1845. D. Mitchell -Dear Sir:- The first time I saw your Eye-Salve was at W. J. Chapin's, where it came as I was informed, on your recommendation, for the cure of his little daughter's eyes. I had little confidence in it, as I have in most of the patent medicines. But as the most popular modes of treatment and special remedies had utterly failed to benefit the little sufferer, I consented to its use, sup- PEPSIN, is put up in the form of Powder, with diposing that if it did no good, it would do no hurt -It was a case of severe Scrofulous Ophthalmy of both eyes. Ague, Bilious, Typhus and all Fe vers-Dysentery and Diarrhoa. In the commencement, it is of absolute importance in view of a speedy cure, that a full dose of pills be taken at once, because the humors which produce disease of this close, are always of the most malignant, poisonous quality and no safety to life axists while

any portion remains in the bowels or the blood Should the first dose not cure, be not slarmed, bu reiterate that dose. Should the evacuations be very putrid, of bad odor, unnatural color, & c. & c , besides rice and a piece of cinnamon boiled in it, or calves head broth. Sheep's head makes the best diet if it be boiled until the bones are clean. As a rule, the first dose of pills cures when timely used. Sometimes three or four doses may be necessary. There are cases in which it takes weeks to cure; but they do not occur once in a thousand times. In any event, no medicine or plan of treatment is better than that as the irritating matters are removed, so soon you will be well, and not before. Anodynes and astringents have a deleterima effect; because they occasion the retention of that death principle which alone cause dysentery, diarrhæa, cholera, and all other diseases, according to its excess over the principle of life. But Brandreth's Pills are opposed to this as water is to fire, or as heat is to cold; and when they are taken into a man, they go to work boldly to drive this death principle from the body, and all they can do-but if there be work for fifty doses, one dose must not be expected to do the work of fifty.
