The public need fear no imposition, as there are now some 280 Machines running in North Carolina; and I wish to offer no other references than the gentlemen who are using them, whose expectations have been more than realized in their performance. It not only thoroughly cleanses the Wheat of Smut, but also purifies it of all other substances, almost to perfection. It takes up but 4 teet square in the mill and requires but little power. It is warranted for five years against breaking or wearing out, and also to retain its cleansing quat-
