ANODYNE COUGH DROPS

Already has experience demonstrated the fact, that much pain and distress are prevented in the family circles by the using of a few select medicines, besides, it is the means, very frequently, of saving a Doctor's bill. Quite in advance of anything heretofore offered has Dr. Little's Pharmaceutical Medicines succeeded in curing the diseases for which they are prescribed. For instance, his Anodyne Cough Drops have really cured more cases, and given more universal satisfaction, than any other known. For proof, he has more statements of its great utility from persons of the first respectability residing in different parts of the country as designated than he can afford to publish or even wishes to crowd into his new pamphlet, besides the many instances of its success otherwise that might be referred to. The medicine never fails to cure or benefit immediately any case of Coughs, Colds, Deep-seated Coughs, or Consumptive Diseases and Asthma, also Whooping-Cough, Croup, Colds and Pneumatory Fever among children. This remedy is pleasant to take, and is no humbug of balsam or foreign extract, but is an extensive compound upon scientific principles.

Dr. LITTLE—Sir: In my own case of a most violent cough of several weeks standing last winter, I was cured entirely by your Anodyne Cough Drops, in taking less than one bottle. After the first dose or two I felt greatly relieved, and had but little more pain or trouble with it in any way. A week or two previous I took a bottle of the Balsam of Wild Cherry, without being much benefited.

Respectfully,

[Signed] W. TAYLOR.

NEW YORK WIRE RAILING WORKS.

PUBLIC attention is invited to a new improvement in manufacturing iron Railings, Grating &c. made from iron rods and Wrought iron, designated

Wire Railing.

It is the most BEAUTIFUL enclosure for public or private grounds, farms, cemeteries, balconies, verandahs, arbors, &c. &c.

Window Guards and Grating.

For stores, dwellings, lunatic asylums, prisons, steamships &c. Iron Bedsteads, with wire packings, iron guards, coal and ash screens, and a variety of articles too numerous to mention, which this invention is susceptible of, possessing convenience never before known, resulting from the improvement for which this article was patented. For elegance, combined with strength, for the beauty of the fine wearable variety of designs, and especially for cheapness, (at one half less than cast iron,) is to design other unrivalled by any thing as yet offered to the public. The plan of crossing the rods is so contrived that each binds the other, and thus a mutual support is given to each individual part of the whole structure. It is believed that fabric formed of the largest wire, and manufactured in this manner will endure at least five times the violence that a Cast Iron Railing in ordinary use is capable of withstanding. Prices vary from 20 cents to $2 per lineal foot. The subscriber also manufactures

WIRE FENCES,

for enclosing farms, railroads parks, lawns, etc. guaranteed to resist cattle, horses, sheep, etc. which are becoming extensively used, and greatly distinguished by lightness of appearance and elegance of form. Being impenetrable at a short distance, the view is thus uninterrupted, the prospect unbarred, and the beauty of landscape unimpaired. The fence is made on an entirely new plan, being portable, yet secure. The whole may be taken down and transported with the same facility as ordinary iron rods. Priced from $1.50 to $3 per rod, including iron Post, from 12 to 16 feet apart. Inquiries or orders addressed to the Proprietor, will meet with prompt attention.

ADMISSION FREE.

HAVING purchased out the entire interest of Thos. M. Oliver, in the late firm of Oliver & Procter, I avail myself of the very first opportunity to inform the patrons of the said firm of the fact and to solicit from them a continuance of their support.—I have just received a beautiful supply of goods, selected by Mr. Oliver, with great care, from the latest importations, embracing

Cloths, Cassimeres and Vestings of every colour and grade, Dress-Shirts, Under-shirts, Drawers, Cravats, Handkerchiefs, &c. &c.

I shall have charge of the pantaloon and vest department myself and I have had exclusive charge of it in the late firm for the last five years.

Every thing will be done that can be done, to give satisfaction and to render the establishment popular with its patrons. Profoundly thankful for the patronage so liberally bestowed upon us as a firm, I shall endeavor, by assiduous attention to business and a desire to please, to merit its continuance.
