15, 1865. Two full sessions of Lectu the first of October, mencing the first of October, and continuing unil April. The Dissecting Rooms are open, and
private lectures and quizzes continue during the
entire year. The first session continues until
Christman, or for three months, and the second
entil the first of April, or three months; the two
constituting one full course of lectures. Examination of candidates for graduation will occur at he end of each session.

REQUISITES FOR GRADUATION.

The requisites for graduation are three sessions of lectures, and three years only; or four sessions, neluding two years spent at the Tniversity. THE SYSTEM OF MEDICINE TAUGHT.

The University is a liberal medical school, in which all branches of medicine and surgery are teught, including the preparatory studies. without regard to any sectarian views. Hence, while they deprecate the exclusiveness of Allopathy, Home-pathy, Eclecticism, Hydropathy, etc., they believe that all principles of cure and therapeutical agents should be taught in all well-regulated medical schools, and that every intelligent, honest, and h practitioner is entitled to oll the courtesies and privileges of the profession, without re-gard to his peculiar notions in therapeutics.

FEES.

The fees for all branches, including all the ticketa, matriculation, and dissection, are sixty dollars a session, or one hundred dellars per year.

Those who purchase tickets only have to matriculate once, which makes the second session Fifty-five Dollars, including demonstrator's fees, or One Hundred and Ffteen Dollars for a full course. To aid young men of moderate means, the University has issued five hundred scholarships, which are sold to first-course students, for Seventy-five Dollars, and to second-course students and clergymen for Fifty Dollars, each constituting the holder a life member, with the perpetual privileges of the lectures, and all the teachings of the school. The only additional fees are a yearly dissecting and matriculating ticket, each of which is Five Dollars.

THE ADVANTAGES OF SCHOLARSHIPS The student holding a scholarship can enter the College at any time during the year, attend as long as he chooses, and re-enter the Institution as frequently as desired.

It requires no previous reading or study to enter the University on scholarships, hence all pri-

vate tuition fees are saved.

Students, by holding scholarships, can prosecute other business a par; of the time.

The candidate for graduation can present himself at any time, and receive his degree as soon as In case a student should hold a scholarship and

not be able to attend lectures, it can be transferred to another, thus preventing any loss.

Parents, guardians or friends ef students wish-

ing to purchase scholarships for them, a year or more before their attendance at the University, can secure them by advancing one-half the price, and paying the balance when the student enters benefit upon poor young men, by presenting them a schelarship, and thus enabling them to obtain an honorable profession.
