### THE SENTINEI

TUESDAY, JANUARY 30.

NEW JERSEY'S SENATOR.

The successor of Mr. Frelinghuysen as a senator in congress for New Jersey is the Hon. John R. McPherson of Jerstee Hon. John R. McPhersen et Jersey City, one of the leading democrate of the state. Mr. McPherson is a native of Livingston county. New York. where he was born in 1833. He went to New Jersey in 1859, and has since been successfully engaged in large enterprises, chiefly in connection with the purchase. purchase, transportation, and sale of live stock, whereby he has acquired a handsome fortune, and a varied and practical acquaintance with business and financial subjects. His knowledge

on this class of questions will make him a valuable member of the senate. The ganvass for the senatorship has been sharp and exciting. Mr. Mcl'herson belongs to the more liberal and popular wing of the democracy, and his necess is regarded as a victory ever its slow-going, exclusive, aristocratic ele-ment in New Jersey, which under the lead of Gov. Bedle and his office-bearers and ex-Senator Stock too and his fellowing, opposed Mr. McPherson with great pertinacity. In a word, the people of that state look upon the result as a sort of triumph over the old Canaden

and Amboy type of democracy.

Mr. McPherson is a gentleman of clear head and positive ideas, of sterling integrity and rare energy; and should Mr. Tilden beinducted into the office to which the people have elected him, Mr. McPherson will give to his administration an intelligent and vigorous support STOCK CANDIA WEEDERN IN MOUNTAND, STATE

The Dispatch, in speaking of Beecher's lecture in Richmond and the atten-

dance, says: "On account of Mr. Bescher's very harsh expressions about the south in years gone by, and because of the unenviable notoriety he attained in counce-tion with the Tilton-Beecher scandal there was on the part of many highly respectable people much reluctance to giving him the least bit of countenance. Many who had admiration for his talents, and no little curiosity to hear him and compare him with the pictures hundreds of writers have given, from a stern sense of duty and propriety kept away. Others, inspired by a firm determination to see this famous man and to hear his elequent utterances, and not caring to burden themselves with the thought of what he is or what he had done, but rather desiring to be amused, and, if possible, instructed, went as a matter of course, as

they would to any good show.

His sudience contained men of all callings except clergymen. Plenty of members of the legislature, lawyers, doctors, city officials and business men graced the occassion, but the ladies and the preachers were conspicuous by their absence, only seven or eight of the former being present.

### HAMPTON'S GOVERNMENT.

The Carpet-Bag Pewer Dissolving-The Hampton Government Success

Columbia Special to New York Herald. · Hampton's government is now nearly Simplete. The appointers throughout the state are in the main exercising the functions of their respective offices, and he is daily receiving the best assurances of loygity from the masses of the people, Already, under the call for ten per cent, of last year's tax levy, Hampton's treasurer has received \$35, 000, nearly half of the whole amount, from nine counties only. The charitable institutions and penitentiary have been provided for, the judges have been paid their salaries, and the entire machinery of government is in thorough working order. Chamberlain officials are unable to collect taxes, and, if the company of United States troops now in the state house was withdrawn, the fares of a dual government would be

A PEN PICTURE OF SENATOR MOR-

Philadelphia Times. A heavy figure makes its way with difficulty through a side entrance. The difficulty arises from the management of a stoat crutch which supports the massive shoulders of the fow, stooping man, while the other hand makes a lesning-post of a stick that might have been a belaying-pin anatohed from the deck of a pirate. His slow, labored procession across the floor gives time for all to no-tice this man, who, if his antecedents do not belie him, will become the Danton of the American scents. A gloom seems to surround his very person. It may be physical pain which accounts for the deep so wi set into his broad, intellec-tual forehead, but the black, ill-fitting clothes, the dark, stained hair and overciothes, the dark, stained hair and over-hanging eyebrows, and bristling mus-tacle, when brought into contrast with the clammy whiteness of the skin of his face and pate, give to the speciator an impression which results in a shudder rather than a sigh. DB. GRISSOM AND THE INSANE.

Salisbury Examiner

It is claimed by some that Dr. Grissom, the efficient Superintendeut of the Insane Asylum, should be displaced because he has not been fully identified with the Democratic party. This, we believe, is the sole ground of opposi-tion to him, for he is acknowledged to be par excellence the best qualified man in the State to take charge of the Inin the State to take charge of the In-sane. Well, is the ground well taken? Is there any interest that will be sub-served by his remeval?

We are in favor of making a clean sweep of our opponents, and of filling all offices and places of trust with per-sons selected from our own party, when it can be done without absolute injury te an innocent class of our unfortunate fellow citizens. 'But we think the Su-perintendents of our charitable instituperintendents of our charitable institu-tions, and especially of the Insane Asy-lum, should be entside of and above the influence of politics. We think they should be selected with special reference to their qualifications for the position and to retain it for life or during good inharity companies. behavior, competency, and faithful per-fermance of the duties imposed.

We don't know much about Dr. Gris-sem's political predilections, we have heard that he has eschewed petitics for several years and given his time to the study of the disease he is selected to treat; and that he is well posted, experienced, and efficient in the treatment of the insane, no one will deny. Then what interest is there to subserve in turning him out? Would it not be a flagrant, a monstrous meral wrong to take him away from 256 or 300 unfertunate patients with each of whose cases he is thoroughly acquainted and well posted as to the transment required, and earn them over to a physician who would have to writing office chief for perhaps. weeks, months or even years, before he ould decide upon the proper treatment? We can imagine no greater wrong with which to inflict the insane than such a change would entail. If they are to be subjected to the whims of a new, inexperienced, untried doctor at every poli-tical change in the State, it would be better for the people to take their insane friends out and chop their heads off rather than subject them to such an er-deal. We are, therefore, on the ground of meral right and humanity, in favor of

retaining Dr. Grissom. We have no doubt we have just as good physicians in the Democratic party as Dr. Gsissem ; but we have none with his experience and efficiency in the treatment of the insane. No one that can be put in his place without inflicting

a grieveus wrong upon this class.

A democratic Legislature placed him where he is, or favored his being kept there, and we thought then and still think it acted wisely. If he was tolerated by, and suited the Democrats then, we can see only stronger reasons why it should be done now. But let not politics enter into the manaement of our charitable institutions, say we.
