THOMAS, COWPERTHWAIT, & CO., OF PHILADELPHIA, and sold by booksellers generally, MITCHELL'S SERIES I SCHOOL GEOGRAPHIES.

MITCHELL'S PRIMARY GEOGRAPHY, THIRD REVISED EDITION. ILLUSTRTED BY MORE THAN

VALUABLE SCHOOL BOOKS,

PUBLISHED BY

ONE HUNDRED BEAUTIFUL ENGRAVINGS. AND

#### FOURTEEN COLOURED MAPS.

THE PRESENT EDITION OF THIS POPULAR work is printed from new plates, the fourth stereotyped for the book since its first appearance twelve years ago, with-in which period more than a million copies have been circusted.

Encouraged by the extensive patronage bestowed on this work, the publishers have taken advantage of the present revision, much to improve it in every respect. Such alterations in the text as recent geographical discoveries and changes tendered necessary, have been made. The maps have been greatly improved and several new and beautiful cuts, designed by Billings, and executed in the finest style of the engraver's art, have been added.

#### MITCHELL'S INTERMEDIATE GEOGRAPHY,

REVISED EDITION. In quarto form, containing maps and reading matter in the same book,

#### · ILLUSTRATED BY

MORE THAN FORTY COLORED MAPS.

ONE HUNDRED AND FIFTY ENGRAVINLS.

This work occupies a medium space between the author's Primary Geography, and the well known Schoel Geography and Atlas, of which last book it contains about two-thirds of

the amount of matter. For convenience of use, and reliable maps and matter, this book has no superior.

## MITCHELL'S SCHOOL GEOGRATHY AND ATLAS.

FOURTH REVISED EDITION.

The present revision has been altogether more thorough and complete than any heretofore attempted. The book has been entirely re-written, and fully brought up to the present time. Advantage has been taken of many suggestions kindly offered by distinguished practical teachers, to improve the work in its general plan and arrangement ; and it is believed that it will bear the closest criticism, both with reference to its geographical accuracy, and its adaptation for use as a school manual. The Atlas accompanying the new addition contains thirty-two beautiful Maps handsomely coloted, and finely executed in the best style of the engraver's art, fully representing all the recent geographical discoveries. With the United States' Maps especially, great pains have been taken to exhibit correctly the numerous railroads of the country, new county lines, and the true position of many new and important towns, not generally represented in School Atlases. New and excellent Maps of Wi-consin, Michigan, and

Texas have been introduced. Others, showing the various routes to the Pacific, by the isthmuses of Panama, Tchuantepee, and Nicaragua, are now added, together with a new map of the Sandwich Islands.

The information obtained with reference to the new States and Territories west of the Mississippi, the discoveries of Lt. De Haven, in his search for Sir John Franklin, and those of ate travelers in Central and Southern Africa, as also in Anstralia, have been incorporated in the work. In short, it is believed that no discovery or change of any importance for the last ten years is left unnoticed in this edition. The Atlas also contains nine quarto pages of statistical mat-r, arranged in tables, and obtained from the most authentic sou ces. These tables exhibit the height of the principal mountains and volcanoes, the length of rivers, the area of the principal islands and lakes, the extent and population of the different countries, and the population of the principal cities upon the globe; all compiled from the latest and most renable authorities. In the department of United States' statistics, the tables are very complete, and exhibit fully the civil, industrial and political condition of the country, as shown by the census of 1-50. In addition to these tables, is one showing the railroads and canals of the United States, and one presenting at a glance the important events in the history of each State, and what will be invaluable to every teacher, a full table of the Educational Statistics of the Union.

# For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

MANY YEARS OF TRIAL, INSTEAD OF IM-pairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the rep-utation it enjoys. While many interior remedies thrust upon the community, have failed and been discarded, this has gained triends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be torgotten.

While it is a fraud on the public to pretend that any one n edicine will infallibly cure-still there is abundant proof that the CHERRY PECTORAL does not only as a general thing, but almost invariably cure the maladies for which it is employed.

As time mokes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log-cabin of the American Peasnat, to the pala-ces of European Kings. Throughout this entire country, in every State, city, and indeed almost every handet it contains, CHERRY PECTORAL is known as the best remedy extant for diseases of the Throat and Lungs, and in many toreign countries, it is becoming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germay, where the metrical sciences have reached their highest perfection, CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the sur st remedy their attending Physicians can employ for the most dangerous aftections of the lungs. Also in milder cases, and for children it is safe, pleasant and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particula ly incidental to childhood.

The CHERRY PECTORAL is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and pretected by law from counterfeits consequently can be relied on as genuine, without adulteration

We have endeavored here to jurnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence-a r medy at once safe, speedy and effectual, which this has by repeated and countess trials proved itself to be ; and trust by great care in preparing it with chemical accuracy, of uniform strength, to afford Physicians a new agent on which they can rely for the best results, a d the afflicted with a remedy that will do for [

"The "Philadelphia Saturday Gazette," says of DR. Hoor-LAND'S GERMAN BITTLES :

" It is seldom that we reco-mend what are termed P-tent Medicines, to the confidence aid patronage of our readers, and therefore when we recommend Dr Hoofland's German Bitters we wish it to be distinctly underst od that we are not speaking of the nostruous of the day, that are noised about for BRITAIN, in 1851-52. a brief period and then forg-tien after they have done their guilty race of mischief, but of a medicine long established. universally prized, and which has met the hearty approval of re faculty itself." \* Scott's Weekly," said, Aug. 25-

DR HOOFLAND'S GERMAN BITTERS, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much eficacy in cases of female weakness. Persons of debilitated constitutions will find these Bitters advantageous to their ealth, as we know from experience the salutary effect they have upon weak systems."

#### MORE EVIDENCE.

J. G. Moore, Esq. of the Daily News, said, October, 31-t DR HOOFLAND'S GERMAN BITTERS - We are trying this enowned medicine for a subborn d sease of the bowels, and can with truth testify to its efficacy. We have taken the conents of two bottles, and we have derived more benefit from the experiment than we derived previously from years of allopathic treatment at the hands of our first physicians." Hon. C. D. Hinehne, Mayor of the City of Camden, N. J.

"Hoo LAND'S GERMAN BITTERS - We have seen many flattering not ces of this medicine, and the source from which they came induced us to make inquiry respecting its merits. From inquiry we were persuaded to use it, and must say we tound it specific in its action upon diseases of the-liver and digestive organ, and the powerful influence it exerts upon nervous prostration, is really surprising. It cams and strengthens the nerves, bringing them into a state of repose, making leep refreshing.

If this medicine was more generally used, we are satisfied there would be less sickness, as from the stomach. liver and nervous sy-tem, the great majority of real and imaginary diseases emanate.
