VALUABLE SCHOOL BOOKS,

PUBLISHED BY THOMAS, COWPERTHWAIT, & CO.,

OF PHILADELPHIA, and sold by booksellers generally, MITCHELL'S SERIES OF SCHOOL GEOGRAPHIES.

THIRD REVISED EDITION. ILLUSTRIED BY MORE THAN ONE HUNDRED BEAUTIFUL ENGRAVINGS,

MITCHELL'S PRIMARY GEOGRAPHY,

FOURTEEN COLOURED MAPS.

THE PRESENT EDITION OF THIS POPULAR work is printed from new plates, the fourth stereotyped for the book since its first appearance twelve years ago, within which period more than a million copies have been circu-

Encouraged by the extensive patronage bestowed on this work, the publishers have taken advantage of the present revision, much to improve it in every respect. Such alterations in the text as recent geographical discoveries and changes rendered necessary, have been made. The maps have been greatly improved and several new and beautiful cuts, designed by Billings, and executed in the finest style of the engraver's art, have been added.

MITCHELL'S INTERMEDIATE GEOGRAPHY, REVISED EDITION.

In quarto form, containing maps and reading matter in the same book. ILLUSTRATED BY

MORE THAN FORTY COLORED MAPS. ONE HUNDRED AND FIFTY ENGRAVINLS. This work occupies a medium space between the author's Primary Geography, and the well known School Geography and Atlas, of which last book it contains about two-thirds of the amount of matter. For convenience of use, and reliable maps and matter,

this book has no superior.

MITCHELL'S SCHOOL GEOGRAFHY AND ATLAS, FOURTH REVISED EDITION.

THE present revision has been altogether more thorough and complete than any heretofore attempted. The book has been entirely re-written, and fully brought up to the present time. Advantage has been taken of many suggestions kindly offered by distinguished practical teachers, to improve the work in its general plan and arrangement; and it is believed that it will bear the closest criticism, both with reference to its geographical accuracy, and its adaptation for use as a school manual. The Atlas accompanying the new addition contains thirty-

two beautiful Maps handsomely colored, and finely executed in the best style of the engraver's art, fully representing all the recent geographical discoveries. With the United States' Maps especially, great pains have been taken to exhibit correctly the numerous railroads of the country, new county lines, and the true position of many new and important towns, not generally represented in School Atlases. New and excellent Maps of Wisconsin, Michigan, and Texas, have been introduced. Others, showing the various routes to the Pacific, by the Isthmuses of Panama, Tehuantepec, and Nicaragua, are now added, together with a new map

of the Sandwich Islands. The information obtained with reference to the new States and Territories west of the Mississippi, the discoveries of Lt De Haven, in his search for Sir John Franklin, and those of late travelers in Central and Southern Africa, as also in Australia, have been incorporated in the work. In short, it is believed that no discovery or change of any importance for the last ten years is left unnoticed in this edition.

The Atlas also contains nine quarto pages of statistical matter, arranged in tables, and obtained from the most authentic ou ces., These tables exhibit the height of the principal orincipal islands and lakes, the extent and population of the lifferent countries, and the population of the principal cities pon the globe; all compiled from the latest and most reliable unhorities. In the department of United States' statistics, the tables are very complete, and exhibit fully the civil, industrial and political condition of the country, as shown by the census f 1850. In addition to these tables, is one showing the railands and canals of the United States, and one presenting at a lance the important events in the history of each State, and what will be invaluable to every teacher, a full table of the Educational Statistics of the Union.

MITCHELL'S ANCIENT GEOGRAPHY AND ATLAS. AN ANCIENT, CLASSICAL AND SACRED GENGRAPHY

#### embellished with INGRAVINGS OF REMARKABLE EVENTS,

VIEWS OF ANCIENT CITIES, AND VARIOUS INTERESTING ANTIQUE REMAINS, AND ILLUSTRATED BY AN ANCIENT ATLAS, CONTAINING NINETEEN ELEGANT COLORED MAPS, THERE are no geographical works published in this country, that are more in demand or that have a wider circulation than those of Mr. MITCHELL. There are upwards of 350,000 copies of them sold annually, and about 250 persons constantly employed in their manufacture. The arrangements of the publishers are such that they are enabled to give correctly all he latest geographical discovertes. They publish the only full series of Geographies in the country, and having in constant employ a strong geographical force of map engravers and others, and being very largely engaged in the pulication of of the various States, and other maps, they are enabled to present the School series correct, both in maps and matter, up to Raleigh, April 20, 1854.

# For the rapid Cure of

COUGHS. COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

MANY YEARS OF TRIAL, INSTEAD OF IMpairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many interior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud on the public to pretend that any one medicine will infallibly cure-still there is abundant proof that the CHERRY PECTORAL does not only as a general thing, but almost invariably cure the maladies for which it is em-

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log-cabin of the American Peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains. CHERRY PECTORAL is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign counries, it is becoming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the most dangerous affections of the lungs. Also in milder cases, and for children it is safe, pleasant and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental

The CHERRY PECTORAL is manufactured by a practical hemist, and every ounce of it under his own eye, with invahable accuracy and care. It is sealed and protected by law from counterfeits consequently can be relied on as genuine, without adulteration. We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence-a remedy at once safe, speedy and effectual, which this has by repeated and countess trials proved itself to be; and trust by great care in preiring it with chemical accuracy, of uniform strength, to aford Physicians a new agent on which they can rely for the est results, a: d the afflicted with a remedy that will do for hem all that a medicine can do. IREDELL on EXECUTORS: A Treatise on the Law of Executors and

Administrators, IN NORTH CAROLINA,

By JAMES IREDELL. THE object of this work has been to exhibit the law as it I now stands in NORTH CAROLINA, in relation to the matters of which it treats. It embraces, therefore, the English doctrines, so far as they are recognised in our own State, as well as our acts of Assembly, and the decisions of our own Courts on the subject of WILLS, EXECUTORS and AD-MINISTRATORS. It is thought it may prove useful not only to members of the legal profession, but also to others who are so frequently called upon to undertake the indispensable.
