and sold by booksellers generally, MITCHELL'S SERIES OF SCHOOL GEOGRAPHIES.

MITCHELL'S PRIMARY GEOGRAPHY, THIRD REVISED EDITION. ILLUSTRTED BY MORE THAN

ONE HUNDRED BEAUTIFUL ENGRAVINGS, FOURTEEN COLOURED MAPS.

THE PRESENT EDITION OF THIS POPULAR work is printed from new plates, the fourth stereotyped for the book since its first appearance twelve years ago, within which period more than a million copies have been circu-Encouraged by the extensive patronage bestowed on this work, the publishers have taken advantage of the present re-

vision, much to improve it in every respect. Such alterations

in the text as recent geographical discoveries and changes

rendered necessary, have been made. The maps have been

greatly improved and several new and beautiful cuts, designed by Billings, and executed in the finest style of the engraver's art, have been added. MITCHELL'S INTERMEDIATE GEOGRAPHY,

REVISED EDITION. In quarto form, containing maps and reading matter in the same book,

JLLUSTRATED BY MORE THAN FORTY COLORED MAPS. ONE HUNDRED AND FIFTY ENGRAVINLS. 'This work occupies a medium space between the author's Primary Geography, and the well known School Geography and Atlas, of which last book it contains about two-thirds of the amount of matter. For convenience of use, and reliable maps and matter.

MITCHELL'S SCHOOL GEOGRAPHY AND ATLAS.

this book has no superior.

FOURTH REVISED EDITION. THE present revision has been altogether more thorough and complete than any heretofore attempted. The book has been entirely re-written, and fully brought up to the present time. Advantage has been taken of many suggestions kindly offered by distinguished practical teachers, to improve the work in its general plan and arrangement; and it is believed that it will bear the closest criticism, both with reference to its geographical accuracy, and its adaptation for use as a school manual. The Atlas accompanying the new addition contains thirtytwo beautiful Maps handsomely colored, and finely executed in the best style of the engraver's art, fully representing all the recent geographical discoveries. With the United States' Maps especially, great pains have been taken to exhibit correctly the numerous railroads of the country, new county lines, and the true position of many new and important towns, not generally represented in School Atlases.

New and excellent Maps of Wisconsin, Michigan, and Texas, have been introduced. Others, showing the various routes to the Pacific, by the Ishmuses of Pahama, Tchuante-

pec, and Nicaragua, are now added, together with a new map of the Sandwich Islands. The information obtained with reference to the new States and Territories west of the Mississippi, the discoveries of Lt. De Haven, in his search for Sir John Franklin, and those of late travelers in Central and Southern Africa, as also in Aus-

tralia, have been incorporated in the work. In short, it is believed that no discovery or change of any importance for the last ten years is left unnoticed in this edition. The Atlas also contains nine quarto pages of statistical matter, arranged in tables, and obtained from the most authentic These tables exhibit the height of the principal mountains and volcanoes, the length of rivers, the area of the principal islands and lakes, the extent and population of the different countries, and the population of the principal cities upon the globe; all compiled from the latest and most reliable authorities. In the department of United States' statistics, the tables are very complete, and exhibit fully the civil, industrial and political condition of the country, as shown by the census of 1850. In addition to these tables, is one showing the railroads and canals of the United States, and one presenting at a glance the important events in the history of each State, and what will be invaluable to every teacher, a full table of the Educational Statistics of the Union.

MITCHELL'S ANCIENT GEOGRAPHY AND ATLAS. AN ANCIENT, CLASSICAL AND SACRED GENGRAPHY embellished with

ENGRAVINGS OF REMARKABLE EVENTS, VIEWS OF ANCIENT CITIES,

AND VARIOUS INTERESTING ANTIQUE REMAINS, AND ILLUSTRATED BY AN ANCIENT ATLAS. CONTAINING NINETEEN ELEGANT COLORED MAPS, THERE are no geographical works published in this country that are more in demand or that have a wider circulation than those of Mr. MITCHELL. There are upwards of 350,000 copies of them sold annually, and about 250 persons constantly employed in their manufacture. The arrangements of the publishers are such that they are enabled to give correctly all the latest geographical discoveries. They publish the only full series of Geographies in the country, and having in constant employ a strong geographical force of map engravers and others, and being very largely engaged in the pulication of of the various States, and other maps, they are enabled to present the School series correct, both in maps and matter, up to the date of publication. For the rapid Cure of COUGHS, COLDS, HOARSENESS,

BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

MANY YEARS OF TRIAL, INSTEAD OF IMpairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many interior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkables o be forgotten.

While it is a fraud on the public to pretend that any one

medicine will infallibly cure—still there is abundant proof hat the HERRY PECTORAL does not only as a general thing, our almost invariably cure the maladies for which it is em-

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log-cabin of the American Peasant, to the palaces of European Kings. Throughout this outire country, in every State, city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries, it is becoming to be extensively used by their most inelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reathed their highest perfection, CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the most dangerous afections of the lungs. Also in milder cases, and for children it is safe, pleasant and effectual to cure In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental

The CHERRY PECTORAL is manufactured by a practical Chemist, and every ounce of it under his own eye, with invatable accuracy and care. It is seared and protected by law rom counterfeits, consequently can be relied on as genuine,

without adulteration. We have endeavored here to turnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust by great care in pre-paring it with chemical accuracy, of uniform strength, to aford Physicians a new agent on which they can rely for the pest results, and the afflicted with a remedy that will do for them all that a medicine can do.

READ AND BE CONVINCED.

The "Philadelphia Saturday Gazette," says of Dr. Hoof-LAND'S GERMAN BITTERS: "It is seldom that we recor mend what are termed Patent Medicines, to the confidence and patronage of our readers; and therefore when we recommend Dr. Hoofland's German Bitters we wish it to be distinctly understood that we are not peaking of the nostrums of the day, that are noised about for a brief period and then forgotten after they have done their guilty race of mischief, but of a medicine long established. niversally prized, and which has met the hearty approval of the faculty itself."

"Scott's Weekly," said, Aug. 25—
"Dr. Hoofland's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most promient members of the faculty as an article of much efficacy in cases of female weakness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon weak systems."

MORE EVIDENCE.

J. G. Moore, Esq., of the Daily News, said, October, 31st : DR. HOOFLAND'S GERMAN BITTERS.-We are trying this renowned medicine for a s ubborn disease of the bowels, and can with truth testify to its efficacy. We have taken the contents of two bottles, and we have derived more benefit from the experiment than we derived previously from years of allopathic treatment at the hands of our first physicians. Hon. C. D. Hineline, Mayor of the City of Camden, N. J.

"HOOFLAND'S GERMAN BITTERS -We have seen many flattering not ces of this medicine, and the source from which they came induced us to make inquiry respecting its merits. From inquiry we were persuaded to use it, and must say we found it specific in its action upon diseases of the liver and digestive organ, and the powerful influence it exerts upon nervous prostration, is really surprising. It cams and strengthens the nerves, bringing them into a state of repose, making sleep refreshing. If this medicine was more generally used, we are satisfied

there would be less sickness, as from the stomach, liver and nervous system, the great majority of real and imaginary diseases emanate. Have them in a healthy condition and you the market. can bid defiance to epidemics generally. IREDELL on EXECUTORS BEING

A Treatise on the Law of Executors and Administrators,

IN NORTH CAROLINA,

By JAMES IREDELL. THE object of this work has been to exhibit the law as it now stands in NORTH CAROLINA, in relation to the matters of which it treats. It embraces, therefore, the English doctrines, so far as they are recognised in our own State, as well as our acts of Assembly, and the decisions of our own Courts on the subject of WILLS, EXECUTORS and AD-MINISTRATORS. It is thought it may prove useful not only to members of the legal profession, but also to others who are so frequently called upon to undertake the indispensable, important and responsible trusts of Executors and Adminis-For Sale by trators. SELECT CLASSICAL

JOSEPH MCMURRAN, A. B., ASSISTANT. THE FALL SESSION WILL COMMENCE ON MONDAY THE 4TH OF JULY. Additional arrangements have been made which will enable the Principal to accommodate with good board and spacious rooms the constantly increasing number of applicants for admission into the School. Boys from a distance are required to Board in the family of the Principal, where the supervision is exercised over their morals, and where they receive every kindness and attention conducive to their comfort. The Principal relies with proud confidence upon the merits of his School alone for success; and refers the public to his own well known skill, and experience for more than twenty years, in the business of teaching, to the undoubted ability and fidelity of his accomplished colleague, to the GOOD BE-HAVIOR, MORAL DEPORTMENT and INTELLECTUAL IMPROVE-MENT OF HIS STUDENTS, and to the already extending patronage bestowed upon him, as the best and most reliable recom-mendations of the School which it is in his power to exhibit His patrons are the best judges of the character of the Seminary and to them he confidently refers an enlightened public The School is independent of any Board of Trustees, and under the exclusive management of the Principal. Mr. McMurrau, the able coadjutor of the Principal, graduated with high distinction at Hampden Sydney College, and brings with him testimonials from the President and Faculty of that Institution, evincing his great moral worth and high order of scholarship, especially in Mathematics and the solid sciences. He has, likewise, a letter of recommendation signed by every member of the Board of Trus ees of Greene Academy in Alabama, of which he was Principal until his services were secured for this school, expressing their exalted sense of his qualifications as a Teacher, and their deep regret at losing his valuable services. Besides the testimonial above allu led to, he is strongly recommended as a gentleman

The different departments of instruction are under the care of nine teachers, who are thoroughly prepared for their work, not only by an intimate practical acquaintance with the branches taught, but by an "aptros to teach," which is even more important to insure success. Every facility for intellectual improvement, such as Maps, Globes, Philosophical and Chemical Apparatus, Library Mineralogical and Conchological Cabinets, have been pro vided, so that this Institution, in every respect, will compare favorably with the best institutions in the country. Circulars containing terms, and other particulars may be obtained of Wm. D. Cooke, Esq., Principal of the North Carolina Institution for the Deaf and Dumb, either by person-
