MITCHELL'S PRIMARY GEOGRAPHY. THIRD REVISED EDITION. ILLUSTRTED BY MORE THAN ONE HUNDRED BEAUTIFUL ENGRAVINGS,

FOURTEEN COLOURED MAPS.

THE PRESENT EDITION OF THIS POPULAR work is printed from new plates, the fourth stereotyped for the book since its first appearance twelve years ago, within which period more than a million copies have been circu-

Encouraged by the extensive patronage bestowed on this work, the publishers have taken advantage of the present revision, much to improve it in every respect. Such alterations in the text as recent geographical discoveries and changes rendered necessary, have been made. The maps have been greatly improved and several new and beautiful cuts, designed y Billings, and executed in the finest style of the engraver's art, have been added.

For convenience of use this book has no superior.

#### MITCHELL'S SCHOOL GEOGRAPHY AND ATLAS, FOURTH REVISED EDITION.

THE present revision has been altogether more thorough and complete than any heretofore attempted. The book has been entirely re-written, and fully brought up to the present time. Advantage has been taken of many suggestions kindly offered by distinguished practical teachers, to improve the work in its general plan and arrangement; and it is believed that it will bear the closest criticism, both with reference to its geographical accuracy, and its adaptation for use as a school manual. The Atlas accompanying the new addition contains thirtytwo beautiful Maps handsomely colored, and finely executed in the best style of the engraver's art, fully representing all the recent geographical discoveries. With the United States' Maps especially, great pains have been taken to exhibit correctly the numerous railroads of the country, new county lines, and the true position of many new and important towns, not generally represented in School Atlases.

New and excellent Maps of Wisconsin, Michigan, and Texas, have been introduced. Others, showing the various routes to the Pacific, by the Isthmuses of Panama, Tehuantepec, and Nicaragua, are now added, together with a new map of the Sandwich Islands. The information obtained with reference to the new States

and Territories west of the Mississippi, the discoveries of Lts. De Haven, in his search for Sir John Franklin, and those of late travelers in Central and Southern Africa, as also in Australia, have been incorporated in the work. In short, it is believed that no discovery or change of any importance for the last ten years is left unnoticed in this edition. The Atlas also contains nine quarto pages of statistical matter, arranged in tables, and obtained These tables exhibit the height of the principal mountains and volcanoes, the length of rivers, the area of the principal islands and lakes, the extent and population of the different countries, and the population of the principal cities upon the globe; all compiled from the latest and most reliable authorities. In the department of United States' statistics, the tables are very complete, and exhibit fully the civil, industrial and political condition of the country, as shown by the census of 1850. In addition to these tables, is one showing the railroads and canals of the United States, and one presenting at a

THERE are no geographical works published in this country, that are more in demand or that have a wider circulation than those of Mr. MITCHELL. There are upwards of 350,000 copies of them sold annually, and about 250 persons constantly employed in their manufacture. The arrangements of the publishers are such that they are enabled to give correctly all the latest geographical discovertes. They publish the only full series of Geographies in the country, and having in constant employ a strong geographical force of map engravers and others, and being very largely engaged in the pulication of of the various States, and other maps, they are enabled to present the School series correct, both in maps and matter, up to

While it is a fraud on the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the CHERRY PECTORAL does not only as a general thing, but almost invariably cure the maladies for which it is evi-As time makes these facts wider and better known, this

medicine has gradually become the best reliance of the afflicted, from the log-cabin of the American Peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains. CHERRY PECTORAL is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries, it is becoming to be extensively used by their most in-telligent Physicians. In Great Britain, France and Germa-ny, where the medical sciences have reached their highest perfection, CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the most dangerous affections of the lungs. Their power over the above diseases is not excelled, if qualled, by any other preparation in the United States, as the cures attest, in many cases after skilful physicians had These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers weakness and affections of the digestive organs, they are, withal, safe, certain and pleasant.

# READ AND BE CONVINCED.

The "Philadelphia Saturday Gazette," says of Dr. Hoof-LAND'S GERMAN BITTERS: "It is seldom that we recon mend what are termed Patent Medicines, to the confidence and patronage of our readers; and therefore when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for brief period and then forgotten after they have done their guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the faculty itself."

"Scott's Weekly," said, Aug. 25—
"Dr. Hoofland's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon weak systems.'

# MORE EVIDENCE.

J. G. Moore, Esq., of the Daily News, said, October, 31st : "DR. HOOFLAND'S GERMAN BITTERS .- We are trying this renowned medicine for a stubborn disease of the bowels, and can with truth testify to its efficacy. We have taken the contents of two bottles, and we have derived more benefit from the experiment than we derived previously from years of allopathic treatment at the hands of our first physicians. Hon. C. D. Hineline, Mayor of the City of Camden, N. J.

"HOOFLAND'S GERMAN BITTERS .- We have seen many flattering not ces of this medicine, and the source from which they came induced us to make inquiry respecting its merits. From inquiry we were persuaded to use it, and must say we found it specific in its action upon diseases of the liver and digestive organ, and the powerful influence it exerts upon nervous prostration, is really surprising. It cams and strengthens the nerves, bringing them into a state of repose, making sleep refreshing. If this medicine was more generally used, we are satisfied there would be less sickness, as from the stomach, liver and

nervous system, the great majority of real and imaginary discases emanate. Have them in a healthy condition and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other medicine can produce such evidences of merit."

Mr. McMurran, the able coadjutor of the Principal, gradu ated with high distinction at Hampden Sydney College, and brings with him testimonials from the President and Faculty of that Institution, evincing his great moral worth and high order of scholarship, especially in Mathematics and the solid sciences. He has, likewise, a letter of recommendation signed by every member of the Board of Trus ees of Greene Academy in Alabama, of which he was Principal until his services were secured for this school, expressing their exalted sense of his qualifications as a Teacher, and their deep regret at losing his valuable services. Besides the testimonia above allu led to, he is strongly recommended as a gentleman and Teacher, by the Rev. Dr. Hall, of Huntsville, Alabama; by the Rev. J. T. Hargrove, Middleburg, Virginia; by the Rev. Moses D. Hoge, Richmond, Virginia; by A. D. Dick-INSON and SAMUEL C. ANDERSON, Esqrs., Prince Edward Ct. House, Virginia; by the Rev. W. S. F. GRAHAM, President of Delaware College, and by the Rev. ELIPHALET NOTT, D. D., LL. D., President, and Messrs. Jackson, Lewis and REED, Professors of Union College, New York.

Like the Principal, Mr. McMurran is a southern man by birth and education.

cessful operation, is situated in the village of Bloomfield, Essex county, New Jersey, about 4 miles from Newark, and 12 miles from the city of New York.

The different departments of instruction are under the care of nine teachers, who are thoroughly prepared for their work, not only by an intimate practical acquaintance with the branches taught, but by an "aptness to teach," which is even more important to insure success. Every facility for intellectual improvement, such as Maps, Globes, Philosophical and Chemical Apparatus, Library Mineralogical and Conchological Cabinets, have been provided, so that this Institution, in every respect, will compare favorably with the best institutions in the country.

Circulars containing terms, and other particulars may be obtained of Wm. D. Cooke, Esq., Principal of the North Carolina Institution for the Deaf and Dumb, either by person-

al application or by letter, post-paid

Dec. 1, 1852, NORTH CAROLINA INSTITUTION FOR THE DEAF & DUMB & THE BLIND THE Sessions of this Institution will hereafter commence 1 on the First day of September of each year, and continue ten months.

This change has been made in order to bring the vacations into the months of July and August, which, on account of the heat of that season, are less adapted to study than the other months. It also brings the Commencement of the School to the season when the Sheriffs of the different counties are coming in to make their returns, thus affording a good opportunity for parents to send their children. The following are the Officers in the Intellectual Department of this Institution.

WILLIAM D. COOKE, M. A., PRINCIPAL. J. A. WADDELL, M. D., ] TALBOT B. COLEMAN, Professors and Teachers. GEO. E. KETCHAM, CHARLES M. GROW.

Teachers of Music in the Blind Department, Miss E. A. FITZWILSON and H. I. I. SOLOMONS. Applications for admission should be made to the Principal Raleigh, August 14, 1852.
