The facts, as we learned them, are substantially as follows :--e time last February, a white man, calling him-Robeson, stopped at the house of a Mr. Tweed, he south end of this county, with the negro in ession. Robeson took sick at Mr. Tweed's, and ained there some days. When he recovered ciently to travel, he informed Tweed that he out of meney, and proposed to leave the boy pledge for his bill, if Tweed would advance a few dollars to enable him to return home to e county. Tweed declined doing so, and final-Mr. Reed, living in the neighborhood, advanc-Robeson fifteen dollars, and took the negro in session as a pledge for the return of the money. ing Robeson a bond for the delivery of the ne upon payment of the money.

his was last February, since which time the to has been in the service of Reed. The facts ing to the knowledge of James W. Patton, one the Magistrates of the county, he very properly sed the negro to be brought before him, and ran examination, during which, the boy gave eral contradictory accounts of himself, commithim to jain. Afterwards he acknowledged that had been lying all the time, and said he belongto the estate of McIver, or McEver, late of desborough, N. C.,-that he was decoved off Robeson, who promised to leave him in a ree neighborhood, until the excitement occasionby his flight should subside, when he would carhim to a free State,-that Robeson was a car-

GOOD NEWS .- Five hundred and thirty-six barrels of rosin, and sixteen barrels of spirits of turpentine, came down the Central Road a few days ago, and were continued on the Wilmington and Raleigh Railroad, and received here on Thursday last, consigned to Mr. Wm. A. Gwyer. The road s finished 12 miles out, and this is the first produce brought on it, we believe. Our readers will be pleased to learn of this first demonstrationshowing the prospect of a large increase in the produce brought to our market, through the means of the Central Road. We will all be pulling to-

# GENERAL INTELLIGENCE. DOMESTIC.

THE CLAWSON HEIRSHIP .--- We mentioned some ime since a rumor that the wife of the Rev. Sam'l Clawson, of Virginia, had fallen heir to an immense fortune in England. The Weston (Va.) Herald says the facts of the case are as follows :

"There was originally the sum of thirty-six millions of dollars, the estate of the Earl of Lancester, in England, and upon the death of the Earl and his brother, a dispute arose between the House of York and the Honse of Lancester, (instituted by the former, because of an intermarriage between the two houses,) the House of York suing for the heirship. The suit was protracted, from the lower lations. to the higher courts, from fifty to a hundred years, and was finally decided at the Exchequer; (the Queen's Bench.) in favor of the Rouse of Lancester. After this decision, advertisements were scattered abroad over the world for the heirs of the Lancester estate, and the mother of Mrs. Clawson, wife of Rev. Samuel Clawson, is one of the heirs. Attorneys are employed by the heirs to secure their interests, and it is supposed that the whole affair will be settled up during this winter, when the heirs will receive their portions. The above sum of thirty-six millions has been at interest for more than sixty-six years, which interest will pay mail, had been about \$120,000, expenses, ex- the costs of law, and leave the original clear fall." PREMIUM TO A NEGRO PLOUGHMAN .- Our readers no doubt observed in the list of premiums published in the Dispatch of Saturday, that the first premium for ploughman was awarded to Mr. R. [Sampson's negro man, "Randolph," who nanaged his four mules without lines. This circumstance excites no comment here, as anything strange or wonderful, but it is one of the many facts of every day occcurrence, which disproves the allegation of the abolitionists, that the negro of the South is exiled from the pale of humanity, ustice, and all kindly sympachies. We question very much whether he has half the chance for fair play, or half the real practical sympathy, in the Northern States, that he daily and hourly experiences from the despots and monsters of the South .-

THE METHODISTS OF THE UNITED STATES have made admirable provision for the education of their pastors. They have already eight first class colleges, with property and funds amounting in the aggregate to \$494,063 and another isprojected in Missouri. They have also forty-six theological academys and seminaries, in twenty-nine of which there are 4,936 students, an average of 178 students to each seminary.

THE CASE OF MISS CUNNINGHAME.-The Turin orrespondent of the London Times says :

203

My letters from Florence say that, when it was notified to Miss Cunninghame, at Lucca, on Monday morning last, that the Grand Duke had given an order for her release, she positively refused to leave the prison on act of grace, as she had been imprisoned a month without being brought to trial, and her advocate had told her that no verdict could be obtained against her, as she had not transgressed the law, and therefore she would not go until she had seen him. In the evening it was announced to her very civilly that go she must. She still refused, and then she was told that if she did not go freely, she would be carried out by force, upon which she replied, "Give me that in hand writing, and I will go." They did so, and accordingly she went. Report says the tracts for the distribution of which she was imprisoned were not of a character to implicate her in any attempt to proselyte, or even bring the Roman Catholic religion into contempt; and, moreover, that an ecclesiastical council had examined them at Lucca, and could find no evidence in them against her. I hear also, that her advocate told her she could make no resistance to the royal will, and must accept her release; but that he was sorry for it, as he felt that he had a good case. It is difficult now to arrive at the whole truth, which will most likely be made public when parliament meets.

HIGHLY IMPORTANT FROM CUBA .- The steamer Isabel from Havana and Key West, arrived at Charleston on Saturday, bringing Havana dates to the 8th inst. Much political excitement prevailed at Havana.

The revolutionary paper " Vox de la Puebla"--having made its appearance again, many arrests had been made. Rumors of attempted revolts were current. It was further stated that, within a few days, a vessel had appeared off Baracco, at the east end of the island, and hoisted what was supposed a signal of distress, when simultaneously with the signal, an attack was made on the fort by seventy armed men on horseback. They were replused. and several of them captured, who were sent to Hayana.

ARMISTICE BETWEEN RUSSIA AND TURKEY. With regard to the Eastern question everything was enveloped in mistification. A Vienna despatch announces that there had been an armistice agreed upon between the Turks and Rus ians for an in lefinite period. This despatch materially advanced the price of English and French funds. Another despatch said that the Turks had crossed the Danube without opposition.

THE EASTERN QUESTION.

The most contradictory accounts were in circulation regarding the aspect of affairs in the East. It was stated that a satisfactory diplomatic note from the Four Powers was on its way to Constantinople, and that the supposed armistice was to allow time for its acceptance. This further strengthened the funds ; but it began to be rumored that the so-called armistice was only a conditional order to Omar Pacha not to commence hostilities till Nov. 1st, if he had not already commenced. This depressed the market particularly, as a telegraphic despatch, apparently authentic, stated that the Letters received at Paris from St. Petersburg | Turks had crossed the Danube in great force near Widdin, and occupied Kalofat, with the intention of assailing the Russians.

Omar Pasha had informed Gotschakoff that he intended to march at once upon the Principalities, whereupon Gotschakoff held a council of war on the 11th, and resolved to evacuate the southern part of Wallachia.

The Russians had made no attempt to cross the Danube. Their troops were still encamped at Bucharest.

SPAIN .- The union of Spain and Portugal was again seriously discussed by all parties. W. Turon had been offered the appointment of

Minister to Washington.

THE WAR IN CHINA-Its Barbarities .- The advices from China give shocking accounts of the barbarities which are committed at the sacking of towns and on the field of battle. It is stated that in one engagement one thousand were killed, besides a large number who were drowned by being pursued into a river; in another, seven thousand were killed; in another, seven hundred ,were burnt to death and killed, only ninety prisoners having been brought in by the victors; but they had the heads of one hundred and fifty others. Numerous engagements are mentioned where thousands perished. The Emperor appears to set the example of barbarous cruelty. When one of his officers is defeated he takes his head off. Every general, therefore, is fighing for his own head. RELEASE OF KOSZTA .- Advices from Sinyrna to Oct. 12th, state that Koszta had been released, and was on his way to Boston. It appears Mr. Offley had received a second despatch from Mr. Marsh at Constantinople, stating that, in his arrangement with M. Brack, the Austrian Internuncio, there is no reserve relative to Koszta's future movements; whereupon Mr. O. consented to his release.
