RETURN OF THE BOSTON OFFICERS.

Last evening, United States Deputy Marshal, John H. Riley, with his aid constables Asa Butman and George Coolidge, and Messrs. Charles G. Godfrey and William T. Black, who were selected by Watson Freeman, Esq., United States Marshal at Boston, for their peculiar efficiency, to conduct the fugitive slave, Anthony Burns, back to his owner in Virginia, arrived in town, on their way to the city of Boston. These gentlemen have been the recipients of many hospitable attentions on the part of gentlemen of the South, and speak of the "peculiar institution" of slavery, as they were enabled to observe it, as entirely misunderstood at the North. The slaves of Norfolk and Richmond, Va., they represent as happy and contented, many employed in the tobacco factories of the last named city, and earning from \$2 to \$4 per week overwork which they could save up to buy their freedom, but this not being desired by them, they usually spend it for such wants as appeared to them,

On their arrival at Norfolk, Va., on the 11th inst. the Mayor of that city, and the President of the Norfolk Club, R. W. Bowden, E-q., extended to them every kindness and hospitality. For a time they were relieved from the immediate surveillance of the slave, and were taken charge of by the mayor and principal ci izens of the city of Nortolk, who ence, that the Hon. K. During the three months he lived in Boston he only got three weeks' employment, and he stated f any negro knew when he was well off, he had better remain at home, and not run away to a free State, to be badly treated, and no one to care for him. SERIOUS CHARGE AGAINST A PHYSICIAN. - Our readers will recollect that some time in the Spring (says the Richmond Dispatch) we published an item announcing the sudden death of Miss Agnes Pharr, daughter of a Pre-byterian Minister, of Coving on, Alleg any county, Virginia and stating tarther that she was expecting to be married in a few days to Dr. Thompson, her father's family physician. The grave suspicion is now expressed that her death was caused by strychnine administered by Dr. Thomp on, and sever I meetings of the citigens have been he'd to consider the matter. The circumstances are thus related by the Lynchburg

Miss Pharr had been indisposed for some weeks and had been taking medicine from Dr. Thompson. When the suspicions assumed a public character, Dr. T., demanded that the body should be disinterred and examined by a committee of physicians, named by himself, but nate girl was obtained, he refused to have anything to do with it, alleging as a reason that he did not wish to wound the feelings of the family.

The reading public, especially of the West and South, have become familiar with the writings of the author of this very pleasant volume. His characteristics are great clearness and simplicity of style, close observation of nature and character, and a certain dry humor of description, which is especially captivating. His sketch of "Tom Owen, the Bee Hunter," is an excellent illustration of his icity in this regard; and his picture of "Wild Turkey Shooting," is another "case in point." The fact is the writer is an artist, and that in writing, as in painting, a

There could not by possibility be a greater contrast. The one all fire, enthusiasm, and semi-madness; the other a man of chastened energy and convincing calmness. The one
