NORTH CAROLINA. The undersigned are preparing, and will publish as seen as the necessary Surveys, &c., can be obtained, New, Large and Complete Map of Nobth Carolina, five feet by three, well engraved and finished in the best style . It is admitted on all sides, that such a work is a great desideratum in our State, and it is in consequence of the

frequent enquiries on this subject, that the undersigned have embarked in the enterprise. The only attempted work of this kind is that of McRea published in 1833; and since then the Counties, Towns, Roads and Post-offices have increased in number, and all our works of Internal Improvements, with small excep-

tions, been set on foot. It is intended that the New Map, now proposed to be published, shall contain, accurately laid down, all the Natural Features of the State-the Inlets, Harbors, Sounds, Lakes, Rivers, Creeks, Mountains, &c.

Also, the public improvements and artificial divisions. The Railroads, Plank roads, Counties, County towns, Post-offices, Cities, Villages, Post-roads and Canals, Col. eges, Academies, &c., &c. The Map will be ready by the summer of 1855.

WILLIAM D. COOKE, SAMUEL PEARCE. Information from any source, and which may be of ser-

vice in making the above work, will be thankfully received. All communications should be addressed to WM. D. COOKE. Raleigh, March, 1855. * Papers copying the above advertisement for six months and calting attention to it editorially, will be entitled to a copy of the Map. In all cases, a marked copy of the Paper containing the notice, must be sent to the "Southern Weekly Post," Raleigh, N. C.

CLE ASON'S PICTORIAL, For M. M. Ballov, who has edited the "Pictorial" from commencement, having bought out the late proprietor, Mr. F. GLEASON, will conduct this popular and widely circulated paper on his own account. The new volume will be radically improved in every respect, and will be published on finer paper than ever before, which quality will be continued henceforth without change. Many new and popular features will at once be introduced, and the literary department will present an array of talent and interest beyond anything it has before attempted. The il-lustrations will be finer, and by better artists than have before been engaged upon the paper, and altogether the publication will be vastly improved and beautified.

Arrangements have been made for representing during he year views of the most notable buildings and localities turoughout the United States, as well as giving likenesses of the most prominent characters, male and female, of artists and men of genius, such as have by their own industry and skill made for themselves a fortune and notable European scenes and occurrences will be given from

week to week, forming a brilliant illustrated journal. TERMS : -INVARIABLY IN ADVANCE. 1 subscriber, one year, \$6.00 4 subscribers, 10.00 10.00 Any person sending sixteen subscribers at the last rate, will receive the seventeenth copy gratis. Address M. M. BALLOU,

The following opinions relative to the merits of this work have been expressed; Extract from the Report of the Joint Select Committee of the Library of the General Assembly of North Carolina, at the last session (1851), through Hon, Wm. H. Washington (Chairman), Senator from Craven County, The Committee cannot but regard the work of Col. Wheeler as a patriotic and praiseworthy effort to rescue from oblivion important facts of our early history, and to evate the character and standing of his native State; and, as such, would cordially recommend it to the favorable consideration, not only of the legislature, but of the people of the State at large."

AYER'S PILLS, NEW and singularly successful remedy for the A cure of all Bilions diseases — Costiveness, Indi-

gestion, Jaundice, Dropsy, Rhenmatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sick-ness and suffering might be prevented, if a harmless but effectual Cathartic were more freety used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Billions derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cure have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Among the many entirent gentlemen who have testified in favor of these Pills, we may mention: DR. A. A. HAYES, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the HON. EDWARD EVERETT, Senator of the U. S. ROBERT C. A INTEROP, Ex-Speaker of the House of Representatives. ABBOTT LAWRENCE, Minister Plen, to England. † JOHN B. FITZPATRICK, Cath. Bishop of Buston.

Also, Du. J. R. CHILTON, Practical Chemist, of

Hos. W. L. Marcy, Secretary of State. WM. B. ASTOR, the richest man in America. S. LELAND & Co., Propr's of the Metropolitan Hotel, and others. Did space permit, we could give many hundred certificates, from all parts where the Pilis have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial. These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly ob-vious. While by the old mode of composition, every medicine is burdened with more or less of actimonious and injurious qualities, by this each indiridual virtue only that is desired for the curative effect is present. All the inert and obnoxions qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other -medicine known to the world As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have _0 The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pecteral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial. They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action - remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.
