ADVERTISEMENTS.

TO A NEW MAP

NORTH CAROLINA.

The undersigned are preparing, and will publish as soon as the necessary Surveys, &c., can be obtained, New, Large and Complete Mar of North Carolina, five feet by three, well engraved and finished in the best style It is admitted on all sides, that such a work is a great desideratum in our State, and it is in consequence of the frequent enquiries on this subject, that the undersigned have embarked in the enterprise.

The only attempted work of this kind is that of McRea published in 1833; and since then the Counties, Towns, Roads and Post-offices have increased in number, and all our works of Internal Improvements, with small excep-

tions, been set on foot. It is intended that the New Map, now proposed to be published, shall contain, accurately laid down, all the Natural Features of the State-the Inlets, Harbors, Sounds, Lakes, Rivers, Creeks, Mountains, &c.

Also, the public improvements and artificial divisions. The Bailroads, Plank roads, Counties, County towns, Post-offices, Cities, Villages, Post-roads and Canals, Col. eges, Academies, &c., &c.

The Map will be ready by the summer of 1855. WILLIAM D. COOKE, SAMUEL PEARCE. Information from any source, and which may be of ser-

vice in making the above work, will be thankfully received. All communications should be addressed to WM. D. COOKE. Rafeigh, March, 1855. * Papers copying the above advertisement for six months and calling attention to it editorially, will be entitled to a copy of the Map. In all cases, a marked copy of the Paper containing the notice, must be sent to the "Southern Weekly Post," Raleigh, N. C.

CLEIASON'S PICTORIAL, For M. M. Barlou, who has edited the "Pictorial" from commencement, having bought out the late proprietor,
Mr. F. Glesson, will conduct this popular and widely circulated paper on his own account. The new volume will be radically improved in every respect, and will be published on ther paper than ever before, which quality will be continued henceforth without change. Many new and popular features will at once be introduced, and the literary department will present an array of talent and interest beyond anything it has before attempted. The illustrations will be finer, and by better artists than have before been agreed around the paper, and altogether the before been engaged upon the paper, and altogether the publication will be vastly improved and beautified.

Arrangements have been made for representing during he year views of the most notable buildings and localities turoughout the United States, as well as giving likenesses of the most prominent characters, male and female, of artists and men of genius, such as have by their own industry and skill made for themselves a fortune and notable European scenes and occurrences will be given from week to week, forming a brilliant illustrated journal. This machine recoved the first premium at the North Carolina State Fair, and was recommended to the public as the BEST now in use in the State. ONSUMPTION CAN BE CURED, AS TREA-ED BY DR. E. N. TRIST, with his celebrated HYGEN AND OXYGENIC VAPOR.

Dr. Trist, graduate of the Royal College of Surgeons in London, and the recipient of diplomas fram the Lung Institution of Edinburgh and the Hotel des Invalides of Paris, having settled permanently in New York for the practice of his profession, begs leave to suggest to the cit-izens of the United States that several years of study and izens of the United States that several years of study and successful experiments in England and Scotland, as well as other parts of Europe, with Consumption in all its forms, enable him to warrant, not only relief, but a complete cure to all those suffering with this great national dis-

Dr. Trist deems it unprofessional to advertise; but others having represented themselves as the originators of the Inhalation Treatment, he would say to the afflicted that he alone is entitled to its first introduction, and would caution all against using the useless and dangerous compounds advertised by incompetent persons. "Take up thy bed and Walk."

Dr. Trist would say to those interested, that he has had manufactured, for the use of his patrons, his "Patent Inhaling Tubes," through which the vapor is conveyed to the parts affected, and which earnestly commends for the cheering results which have attended their use; and the fact, that they may be used by the most feeble invalid without any unpleasant symptoms.

To those residing out of the city, Dr. Trist will forward one of the Inhaling Tubes, together with a package of the Vapor, sufficient to last three mouths, accompanied with

Dear Sir-Allow me to express to you my sincere thanks for your discovery of a medicine, which, to say the least of it, has effected a cure, that all other medicine, that I have taken, have entirely faled to do. 'Hoofland's German Bitters' have cured me of the most stubborn and aggravated case of the Piles, that, haps, ever fell to the lot of man. My case is not a strang Uncle Thomas' Game of American Chronological er to this community, as I am well known in this and the ards, has astonished all my friends and relations, as I had tried everything recommended, and nothing did me any god until I-was prevailed upon to try the Bitters. A NEW and singularly successful remedy for the A cure of all Bilious diseases - Costiveness, Indi gestion, Jaundice, Dropsy, Rheumatism, Fevers, Gont, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and

Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Among the many eminent gentlemen who have testified in favor of these Pills, we may mention: DR. A. A. HAVES, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the HON. EDWARD EVERETT, Senator of the U.S.

ROBERT C. WINTHROP, Ex-Speaker of the House

ABBOTT LAWRENCE, Minister Plen. to England.

+ JOHN B. FITZPATRICK, Cath. Bishop of Boston.

Also, Dr. J. R. CHILTON, Practical Chemist, of

of Representatives.

New York City, endorsed by

HON. W. L. MARCY, Secretary of State. WM. B. ASTOR, the richest man in America. S. LELAND & Co., Propr's of the Metropolitan Hotel, and others. Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing that the experience of eminent public men is found's their effects upon trial. These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been ob

tained by any process. The reason is perfectly obvious. While by the old mode of composition, every

medicine is burdened with more or

mobious and injurious qualities, by this each individual virtue only that is desired for the curaties are is present. All the inert and of maximus and individual to the inert and the inert ities of each substance employed are left behind, the cufative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful anticote to disease than any other medicine known to the world As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its con remedy without knowing its composition. I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there sho one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how

few would be taken if their composition was known Their life consists in their mystery. I have -0 mysteries. The composition of my preparations is laid open to all men, and all who are competent to judge of the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its office. nedicine before its effects were known. Many on inent Physicians have declared the same thing of my Pills, and even more confidently, and are will ing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the nternal viscera to purify the blood and stimulate into healthy action - remove the obstructions the stomach, bowels, liver, and other organs of the oody, restoring their irregular action to health, and by correcting, wherever they exist, such derange ments as are the first origin of disease. Being sugar wrapped they are pleasant to take and being purely vegetable, no harm can arise from
